February 20, 2026

The Honorable Mike Kehoe
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Annual Comprehensive Financial Report (ACFR) of the State of Missouri for the fiscal year ended June 30, 2025. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and their opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform guidance).

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Article IV, Section 27 of the Missouri Constitution, amended in 2014, requires the Governor to notify the General Assembly if the Governor reduces allotments when it appears revenues will be less than estimated. This Section then gives the General Assembly the authority to overturn any of the Governor's restrictions with a two-thirds vote, similar to the procedure to overturn a veto. Unexpended appropriations lapse at the end of each fiscal year, unless reappropriated to the following budget fiscal year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Revenue collection information as of June 30, 2025, indicates that net general revenue collections for fiscal year 2025 did not significantly differ compared to June 2024, during both years an amount of $13.4 billion was collected. Collections reflected continuing moderation for all major revenue sources.

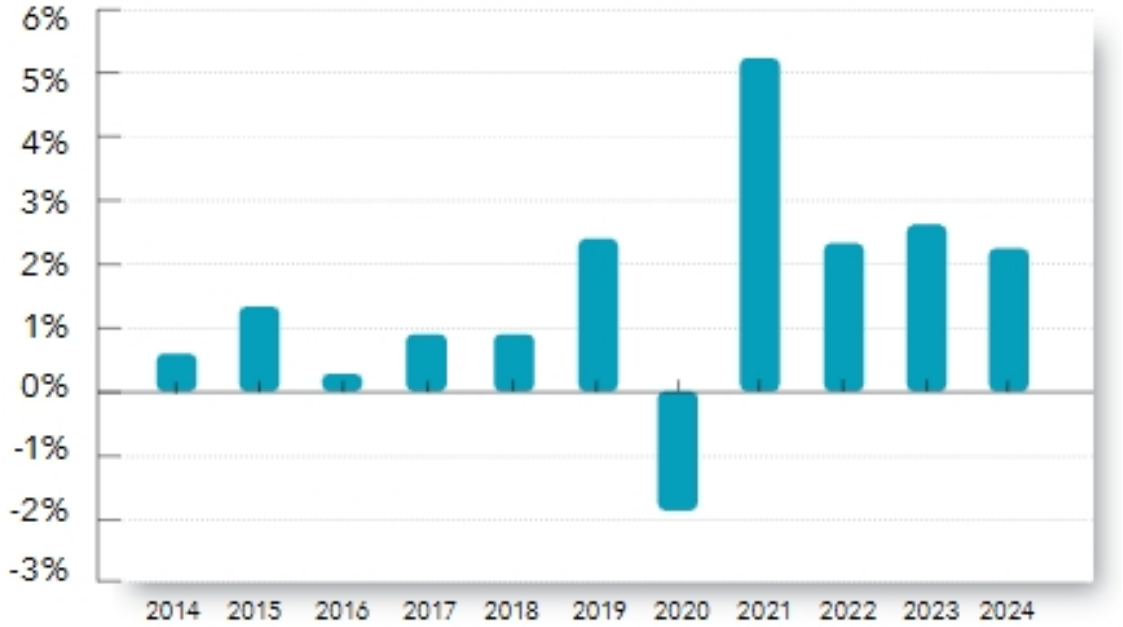
The State's economic outlook for fiscal year 2026 anticipates continued slowing growth in employment, wages, and consumption. Interest rates remain high, continuing to dampen investment and consumption. The labor market is no longer too tight, with unemployment increasing nationally. In addition, heightened trade and international tensions are beginning to restrict national growth and may restrict Missouri growth. The following chart shows the general revenue fund cash balances over the last 5 years indicating the State's positive financial standing.

	Fiscal Year Ended June 30				
	2025	2024	2023	2022	2021
General Revenue Fund Cash Balance (in thousands of dollars)	$ 4,320,169	$ 4,802,183	$ 5,765,663	$ 4,899,052	$ 2,354,131

During fiscal year 2022, the State received $2,685,296,000 in grant monies as part of the American Rescue Plan Act (ARPA), $1,698,819,000 of which is for Revenue Replacement. ARPA was signed to deliver relief to the American economy and work towards beating the COVID-19 virus. As of June 30, 2025, the State expended $1.6 billion and has $1.1 billion remaining to expend prior to December 31, 2026. Monies received through ARPA are to be used for expenditures such as public health, assistance for negative economic impacts, infrastructure to provide safe drinking water, infrastructure for broadband, and some administrative expenses to assist in these endeavors. The Revenue Replacement portion specifically is to be spent on items such as provision of government services and non-federal match for other Federal programs. At the end of fiscal year 2025, the state had 1,224 projects which were either completed or in progress. The projects consisted of 76 Public Health projects, 225 Negative Economic Impacts projects, 605 Infrastructure projects, 19 Administrative projects, and 299 Revenue Replacement projects across the state.

Missouri's GDP was $356.7 billion in 2024 in 2017 inflation-adjusted dollars; this is a 2.3% increase over 2023 and more than the 10-year average. Missouri grew at an annualized rate of 1.6% to equal $53.04 billion in growth over the past 10 years, or a 17.5% GDP increase overall.

Missouri Real GDP Annual Growth Rate



Source: MERIC 2025 Missouri Economic Report

In July 2025, Missouri's unemployment rate was 3.9%, while the nation's unemployment rate was 4.2%, a slight change from July 2024, reflecting a stable trend in unemployment rates. Missouri and the nation are experiencing low unemployment numbers, however, there has been a slight rise over the last year.

Long-Term Financial Planning

The Big Beautiful Bill (BBB) was signed into law in July 2025. Most provisions were related to making temporary components of the Tax Cuts and Jobs Act (TJCA) permanent. This included the increased standard deduction and elimination of the personal deductions. Since Missouri has "rolling conformity" with federal tax law, multiple changes made from the TCJA also directly impacted Missouri corporate and individual income taxes. However, most of the new tax changes, such as the tip income tax exemption and bonus senior deductions, bypass Missouri's rolling conformity and will not have a direct impact on Missouri income taxes

The General Assembly passed several tax related bills during the 2025 regular and first special legislative sessions. The combined impact to general revenue during fiscal year 2026 is estimated to be an approximately $698.1 million to $749.1 million loss. Once fully implemented, the legislation could reduce general revenue by $774.8 million annually.

During 2025, Legislature passed House Bill 594, which exempts capital gains from income tax. This is expected to reduce general revenue by $359.6 million once fully implemented. The corporate income tax subtraction will not begin until after the individual income tax rate has been reduced to 4.5% or lower. This is expected to reduce general revenue by $126.6 million once fully implemented.

House Bill 594 grants a sales tax exemption on diaper and feminine hygiene products. This is expected to reduce general revenue by $27.8 million annually. In addition, House Bill 594 grants a sales tax exemption for equipment and machinery used in broadband installations. This is expected to reduce general revenue by $5.0 million annually.

House Bill 594 also increases the tax credit and income limits for the Senior Property Tax Credit. This legislation could reduce general revenue by at least $72.1 million annually.

The General Assembly passed HB 121 which creates a new tax credit for donations made to a newly created zero cost adoption fund. This legislation may reduce general revenue by up to $5 million in fiscal year 2026. Once fully implemented, this legislation may reduce general revenue by up to $75 million annually.

The General Assembly also passed House Bill 754 which creates an exemption for the capital gains earned on the sale of gold as well as allows Missouri resident estates and trusts to exempt income earned outside of Missouri from income tax. After accounting for the capital gains exemption already allowed under HB 574, this provision is anticipated to reduce general revenue by an additional $52.6 million once fully implemented.

Relevant Financial Policies

Article X, Sections 16-24 of the Constitution of Missouri (the “Tax Limitation Amendment”), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually, in accordance with the formula set forth in the amendment which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year the excess revenue will be refunded pro-rata, based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995-1999. The State has refunded to taxpayers $979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2025, inclusive. The State is currently $4.74 billion below the limit and does not expect the limit to be exceeded in fiscal year 2026.

Major Initiatives

Highlights of the 2025 Regular Session include the passage of the following:

- **Public Safety**

  The Governor announced the Blue Shield Program in Executive Order 25-03. The program recognizes and rewards local governments for prioritizing public safety efforts, including, up to $10 million in new funding to assist with law enforcement training, technology, and equipment. The program supports law enforcement, fosters collaboration, and reduces crime.

- **Agriculture**

  The General Assembly has approved Senate Bill 1 for $55 million in funding for Missouri State Fair improvements, focusing on the new Michael L. Parson Arena to provide a year-round event center and better exhibitor experiences. The arena will also serve as a storm shelter for the area.

- **Education**

  The General Assembly is once again fully funding the K-12 foundation formula and $376.6 million for K-12 student transportation. Governor Kehoe also proposed a $200 million increase for public education funding, representing the largest increase ever seen. The General Assembly chose to spend an additional $297 million in addition to Governor Kehoe's historic recommendation.

- **Tax Cuts**

  The General Assembly approved House Bills 508 and 594 for pro-growth legislation, eliminating the income tax on capital gains, which is expected to reduce state revenues by approximately $400 million annually.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the ACFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

Stacy Neal, CPA
Director

SCOTT FITZPATRICK
MISSOURI STATE AUDITOR

INDEPENDENT AUDITOR'S REPORT

Honorable Mike Kehoe, Governor
and
Members of the General Assembly

Report on the Audit of the Financial Statements

Qualified and Unmodified Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Missouri, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the State of Missouri's basic financial statements as listed in the table of contents.

Summary of Opinions

Opinion Unit	Type of Opinion
Governmental Activities	Qualified
Business-Type Activities	Unmodified
Aggregate Discretely Presented Component Units	Unmodified
General Fund	Qualified
Public Education Fund	Unmodified
Conservation and Environmental Protection Fund	Unmodified
Missouri Road Fund	Unmodified
State Lottery Fund	Unmodified
Unemployment Compensation Fund	Unmodified
Aggregate Remaining Fund Information	Unmodified

Qualified Opinions on the Governmental Activities and the General Fund

In our opinion, based on our audit and the reports of other auditors, except for the possible effects of the matter described in the Basis for Qualified and Unmodified Opinions section of our report, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the State of Missouri, as of June 30, 2025, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan;

the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan, which represent 59 percent of the assets and 10 percent of the revenues of the governmental activities. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities and funds, are based solely on the reports of the other auditors.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the State of Missouri, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of certain entities and funds. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities and funds, are based solely on the reports of the other auditors. Those entities and funds were:

1. The State Lottery Fund, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 11 percent of the assets and 80 percent of the revenues of the business-type activities.

2. The aggregate discretely presented component units.

3. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation custodial funds which represent 91 percent of the assets and 29 percent of the additions of the fiduciary funds.

Basis for Qualified and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the State of Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified audit opinions. The financial statements of the Missouri Consolidated Health Care Plan (MCHCP), internal service fund; the Missouri Development Finance Board and the Missouri Agricultural and Small Business Development Authority, discretely presented component units; and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System and the MCHCP State Retiree Welfare Benefit Trust, pension (and other employee benefit) trust funds, were not audited in accordance with *Government Auditing Standards*.

Matter Giving Rise to Qualified Opinions on the Governmental Activities and the General Fund

We were not allowed access to tax returns and related source documents for income taxes. Approximately 25 percent of governmental activities revenues and 28 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State of Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the information listed under Required Supplementary Information in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, except for the effect of the matter described in the Basis for Qualified and Unmodified Opinions section of our report, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, our report dated February 20, 2026, on our consideration of the State of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters will be issued under separate cover in the Report on Internal Control, Compliance, and Other Matters. The purpose of our report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Missouri's internal control over financial reporting or on compliance. Our report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Missouri's internal control over financial reporting and compliance.

Scott Fitzpatrick
State Auditor

February 20, 2026

*The **Management's Discussion and Analysis** provides a narrative overview and analysis of the financial activities of the State.*

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's financial activities for the fiscal year ended June 30, 2025. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government-Wide:

- *Net Position.* Assets and deferred outflows of the State of Missouri exceeded liabilities and deferred inflows at the close of fiscal year 2025 by $46.0 billion. Of the $46.0 billion, "unrestricted net position" is reported as a negative $511.4 million, offset by $9.5 billion in "restricted net position", and $37.0 billion net investment in capital assets.

- *Changes in Net Position.* The State's total net position increased by $1.9 billion in fiscal year 2025. Net position for governmental-type activities increased by $1.8 billion.

- *Excess of Revenues over (under) Expenses.* During fiscal year 2025, the State's total revenues of $42.6 billion were $1.9 billion greater than total expenses of $40.7 billion (excluding capital contributions, transfers, and extraordinary items). Of these expenses, $24.6 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled $18.0 billion.

Fund-Level:

- *Governmental Funds – Fund Balance.* At the close of fiscal year 2025, the State's governmental fund assets exceeded liabilities by $17.4 billion, a decrease of $60.4 million or 0.3% from the prior year. The decrease was due mainly to the following: expenditures increased $703.0 million, primarily due to a decrease in investments of $686.8 million and an increase in accounts payable of $217.1 million.

- *General Fund – Fund Balance.* At the end of the current fiscal year, the State's General Fund reported a balance of $10.4 billion.

Additional information regarding individual funds begins on Page 8.

Debt Issued and Outstanding:

- The primary government's total long-term obligations related to bonds payable decreased $448.9 million, or 22.2%, over the prior year, reducing the obligation. The outstanding bonds payable represents 5.6% of financial assets (cash, receivables, and investments) and 2.4% of total assets. The State has financed purchases through direct borrowings in the amount of $31.6 million. Additional detail is available in *Note 11* and *Note 12*.

Revenue Limit:

- The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2025, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as *net position.* Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, insurance coverage, and inmate canteen. Also included are the operations of the State Lottery and Unemployment Compensation funds.

Discretely Presented Component Units are operations for which the State has financial accountability but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, Missouri Wine and Grape Board, and the State Environmental Improvement Energy Resources Authority.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. A reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, and publishing maps and documents. Also included are the operations of the State Lottery and Unemployment Compensation funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery and Unemployment Compensation, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds and schedules for pension and other post-employment benefits. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules and statements for the Missouri Road Fund, non-major special revenue, debt service, capital projects, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased $1.9 billion during fiscal year 2025. Cash and cash equivalents and investments decreased $1.5 billion. This was mainly due to an increase in expenditures. Accounts receivable increased $1.0 billion, mainly due to a rate increase for interest receivable. Capital assets increased $1.4 billion primarily related to an increase in investment in the State's infrastructure.

Net investment in capital assets, which includes capital assets, bonds payable, and obligations under right-to-use assets/financed purchase obligations, is the largest component of the State's net position at $37.0 billion or 80.4%. These assets include construction in progress, software in progress, infrastructure in progress, land, easements, land improvements, buildings, equipment, software, trademarks, infrastructure, and intangible right-to-use assets related to leases and subscription based information technology agreements (SBITA) which are not easily converted to cash or readily available to pay state debts as they come due. Net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by $2.1 billion or 4.8%. The increase was primarily due to the increase in capital assets of $1.4 billion and a decrease in related outstanding bond, lease, and financed purchase obligation of $88.7 million.

Restricted net position of the primary government totaled $9.5 billion or 20.7% of total net position vs. 20.2% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of $24.6 billion and general revenues of $18.0 billion for total revenues of $42.6 billion during fiscal year 2025. Expenses for the State during fiscal year 2025 were $40.7 billion. Total net position, net of contributions and transfers, increased by $1.9 billion.

The following table displays the current and prior year government-wide condensed Statement of Activities.

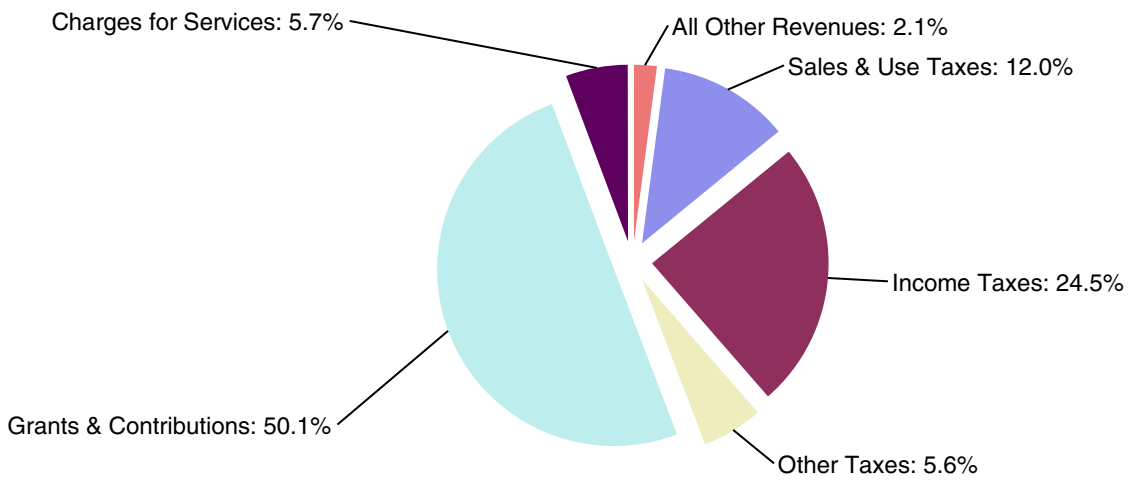
*Fiscal year 2024 amounts have been restated.

Governmental Activities

The net position of governmental activities increased $1.8 billion in fiscal year 2025. General and program revenues of governmental activities were $625.0 million more in fiscal year 2025 than in fiscal year 2024, most notably due to an increase in income taxes.

As shown in the Revenues by Source chart below, approximately 42.1% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 50.1% of total revenue. Charges for services contributed 5.7% and various other revenues provided 2.1% of the remaining governmental activity revenue sources.

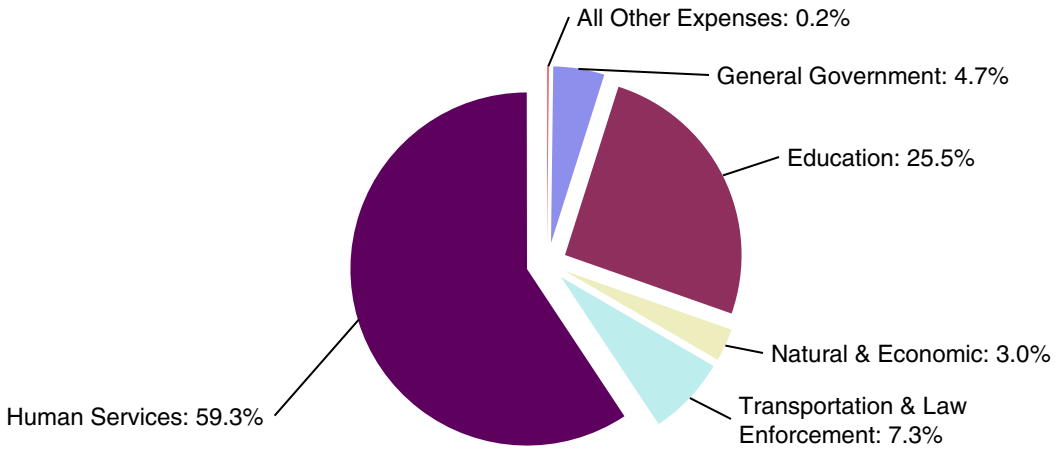
Revenues by Source



The State's governmental activities program expenses for fiscal year 2025 were $725.9 million more than fiscal year 2024. The most notable increase is $1.0 billion in Human Services. This is mainly due to an increase in specific programs associated with medical assistance services.

As shown in the Expenses by Function chart below, expenses for Human Services comprised the largest portion of total governmental activities expenses at 59.3%, followed by Education at 25.5%.

Expenses by Function

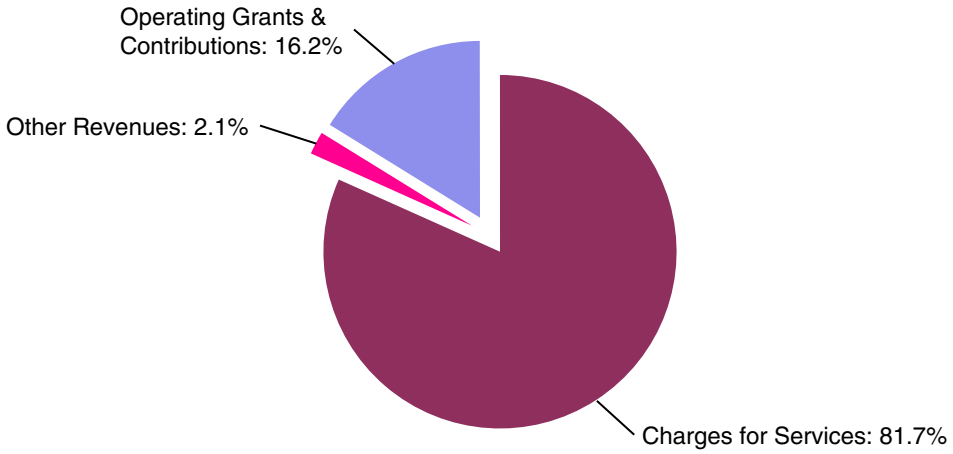


Business-Type Activities

Net position of the State's business-type activities increased $72.9 million in fiscal year 2025, primarily caused by an increase in cash and cash equivalents. The increase was primarily caused by an increase in cash of $68.8 million for unemployment as a result of a healthy economy, which allows excess cash to remain in the fund.

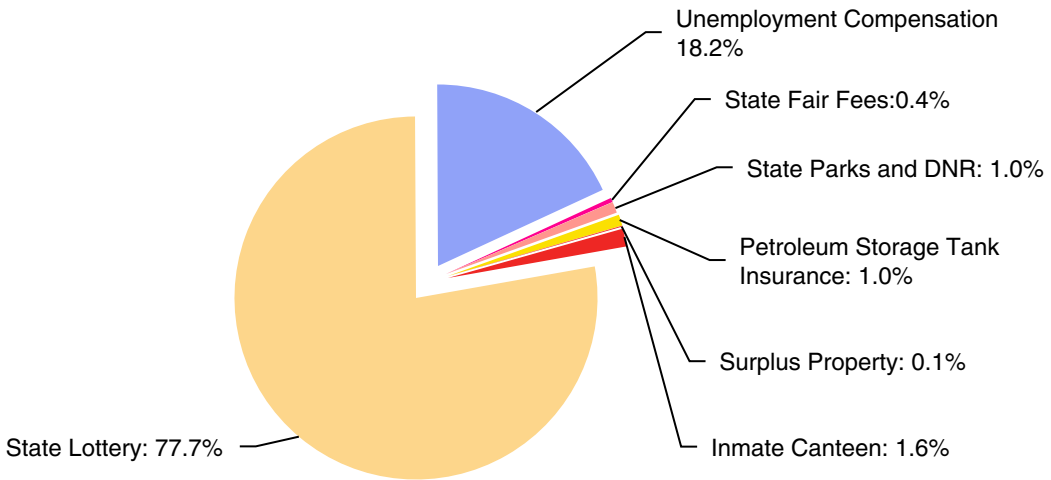
Revenues of business-type activities totaled $2.1 billion. As shown in the Revenues by Source chart below, 81.7% of the revenues came from charges for services. Operating grants and contributions provided 16.2% of the total revenues and all other revenues provided 2.1%.

Revenues by Source



Expenses of business-type activities totaled $1.7 billion. As shown in the Expenses by Fund chart below, State Lottery makes up the largest portion with 77.7% of total business-type expenses. Unemployment Compensation comes in second at 18.2%, followed by Inmate Canteen at 1.6%, State Parks and DNR at 1.0%, Petroleum Storage Tank Insurance at 1.0%, State Fair Fees at 0.4%, and Surplus Property at 0.1%.

Expenses by Fund



FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2025, the State's governmental funds reported combined ending fund balances of $17.4 billion. Approximately 67.8% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Funds	Total
Nonspendable	$ 72,379	$ —	$ 253	$ 61,022	$ 88,040	$ 221,694
Restricted	2,384,740	385,254	243,549	1,663,552	702,646	5,379,741
Committed	976,190	2,956	2,898,341	—	353,222	4,230,709
Assigned	984,761	37,658	121,681	—	452,291	1,596,391
Unassigned	5,961,073	—	—	—	—	5,961,073
Total	$ 10,379,143	$ 425,868	$ 3,263,824	$ 1,724,574	$ 1,596,199	$ 17,389,608

The General Fund is the chief operating fund of the State. At the end of fiscal year 2025, the State's General Fund reported a total fund balance of $10.4 billion, a decrease of $605.0 million from fiscal year 2024. This was mainly due to a decrease of $1.3 billion in Cash and Cash Equivalents and Investments due to increased spending of American Rescue Plan Act (ARPA) money. This was offset by a decrease of $712.7 million in Unearned Revenue due to ARPA money received during fiscal year 2022 being spent and, therefore, earned during fiscal year 2025.

The Public Education Fund provides general and special education services to the children of the State and other related functions, such as library services and student loans. At the end of fiscal year 2025, the fund balance was $425.9 million, a decrease of $188.1 million or a 30.7% decrease from fiscal year 2024. This was mainly due to an increase of $159.9 million in education expenses.

The Conservation and Environmental Protection Fund provides the preservation of the State's wildlife and environment. At the end of fiscal year 2025, the fund balance was $3.3 billion, an increase of $568.8 million from fiscal year 2024. This was mainly due to an increase of $640.6 million in receivables related to new projects under the Clean Water Direct Loan program.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. At the end of fiscal year 2025, the fund balance was $1.7 billion, a decrease of $81.5 million from fiscal year 2024. This decrease was mainly due to a $47.3 million decrease in total assets and a $39.1 million increase in total liabilities.

Proprietary Funds:

The State has two major proprietary funds: State Lottery and Unemployment Compensation. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own.

The State Lottery Fund's net position increased by $913.0 thousand in fiscal year 2025, mainly due to a fluctuation in market yields, which increase or decrease the unrealized gain on investments. Total operating revenues decreased by 7.6% and operating expenses decreased by 6.1% in fiscal year 2025. Ticket sales decreased by $141.0 million which led to a decrease in prize expenses of $76.1 million. The decrease was mainly due to a decline in Scratcher ticket sales of $32.0 million.

The Unemployment Compensation Fund's net position increased by $56.4 million during fiscal year 2025. This is mainly due to an increase in cash as a result of a healthy economy, which allows excess cash to remain in the fund. The increase in cash of $68.8 million mainly results from contributions exceeding benefit payments by $54.1 million and a decrease in accounts receivable of $10.3 million.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted amounts, and increases to estimated appropriations, which occur during the fiscal year.

Budgeted charges to appropriations for fiscal year 2025 from the General Fund were $51.7 billion original budget and $52.8 billion final budget. Actual spending was $38.8 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year, but the expenditures may occur over several years.
- Capital improvement appropriations were restricted during the budget process.

Budgeted revenues/transfers in for fiscal year 2025 for the General Fund were $40.6 billion original budget and $41.0 billion final budget. Actual revenue/transfers in was $37.2 billion.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 144 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2025, was $38.4 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, infrastructure, and intangible right-to-use assets related to obligations under right-to-use assets.

Capital Assets of the State include (in thousands):

	Governmental Activities	Business-Type Activities	Total
Construction in Progress	$ 478,906	$ 30,221	$ 509,127
Software in Progress	269,843	—	269,843
Infrastructure in Progress	4,200,993	—	4,200,993
Land	3,144,749	39,135	3,183,884
Permanent Easements	18,881	—	18,881
Land Improvements	258,649	56,178	314,827
Temporary Easements	6,386	50	6,436
Buildings and Improvements	3,897,300	59,839	3,957,139
Equipment	1,474,829	42,706	1,517,535
Software	420,014	446	420,460
Trademarks	17	—	17
Infrastructure being depreciated	56,729,076	—	56,729,076
Land - Right-to-Use	1,009	—	1,009
Temporary Easements - Right-to-Use	24	—	24
Buildings - Right-to-Use	54,599	2,215	56,814
Equipment - Right-to-Use	6,066	631	6,697
Software - Right-to-Use	121,860	431	122,291
Infrastructure - Right-to-Use	5,463	—	5,463
Subtotal	71,088,664	231,852	71,320,516
Less Accumulated Depreciation/ Amortization	(32,796,764)	(93,511)	(32,890,275)
Total Capital Assets, Net	$ 38,291,900	$ 138,341	$ 38,430,241

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2025, the primary government had total general obligation and other bonded debt outstanding of $1.6 billion. The State had an additional $31.6 million of financed purchases from direct borrowings obligation outstanding.

Principal amounts retired or refunded in fiscal year 2025, were $448.9 million for other bonds, and $26.4 million for direct borrowings.

The State of Missouri is proud to have maintained a Triple-A credit rating since 1989 from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds. There were no outstanding General Obligation Bonds at the end of fiscal year 2025.

Outstanding Bonds Payable Financed Purchase Obligation of the State include (in thousands):

	Governmental Activities	Business-type Activities	Component Units	Total
Other Bonds	$ 1,520,025	$ 49,710	$ 1,913,210	$ 3,482,945
Direct Placements	—	—	165,204	165,204
Financed Purchases from Direct Borrowings	31,568	—	46,964	78,532
Total	$ 1,551,593	$ 49,710	$ 2,125,378	$ 3,726,681

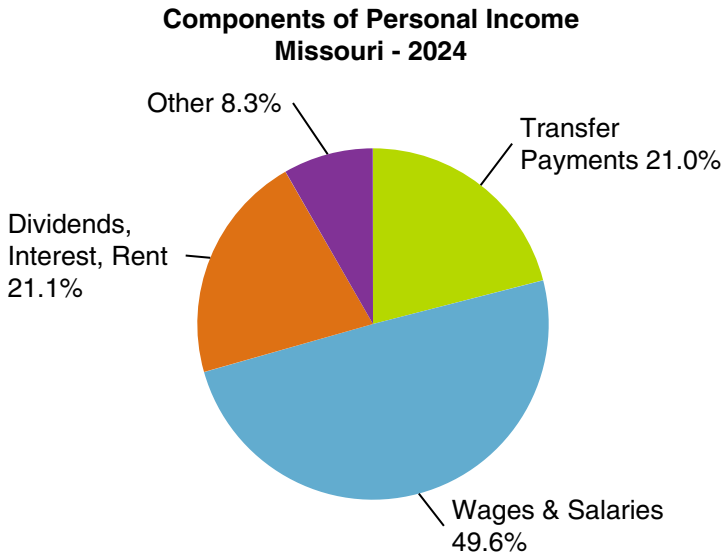
Additional information on long-term debt can be found in *Notes 10, 11, and 12* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

As a major manufacturing, financial, and agricultural state, Missouri's economic health is tied closely to that of the nation. Missouri's economy continues to expand; however, there are growing headwinds from continued high interest rates, national policy uncertainty, and geo-political conflicts.

Missouri's personal income, which directly impacts individual income tax and sales tax, increased 4.2% in 2024. Growth was strong across all types of personal income, including 4.5% growth in salary and wages, 4.3% growth in business income, and 3.9% growth in investment income. Missouri's employment stood at 3.01 million in June 2025, about 0.9% higher than in June 2024. The state's seasonally adjusted unemployment rate registered 4.0% in June 2025, compared to 3.8% in June 2024. The increase in the unemployment rate through June 2025 primarily reflects strong and sustained growth in the labor force. It shows the healing of the market now that wages are enticing and people are no longer avoiding the labor market. The national rate was 4.1% in June 2025.

Since 2018, personal incomes have increased, on average, 5.1% annually for the state and 5.0% for the nation. The average income of a Missouri citizen was $64,740 in 2024, which was lower than the national average of $72,425. Missouri's per capita personal income grew 3.6%, compared to national growth in per capita income of 4.3%, from 2023 to 2024. While the State's per capita income is lower than the national average, so is the cost of living. Missouri is among the most affordable states as it had the fourth lowest cost of living in the United States in 2025. The below graph depicts the components of personal income, with transfer payments (such as social security, Medicare, etc.) comprising 21.0% of the State's total personal income, due in part to the State's aging population.



Source: U.S. Bureau of Economic Analysis 2025

The State of Missouri's net general revenue collections in fiscal year 2025 were $13.4 billion, a flat comparison to fiscal year 2024 collections. This reflects continuing moderation in individual income tax collections yet robust sales tax collections.

The State's economic outlook for fiscal year 2026 anticipates slowing growth in employment, wages, and consumption. Since fiscal year 2025 finished slightly above forecast, the Governor has begun fiscal year 2026 with restrictions in place on general revenue spending. The Governor may release restrictions during the fiscal year if collections come in higher than expected.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

*The **Basic Financial Statements** include the Government-Wide Financial Statements, the Governmental Fund Financial Statements, the Proprietary Fund Financial Statements, the Fiduciary Fund Financial Statements, the Component Unit Financial Statements, and the accompanying notes to the statements.*

*The **Governmental Funds** focus on current financial resources.*

Governmental Fund Financial Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education - Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection - Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund - Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements for non-major funds as part of Supplementary Information.

STATE OF MISSOURI
RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION
June 30, 2025
(In Thousands of Dollars)

Total Fund Balances - Governmental Funds		$ 17,389,608
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental funds are not financial resources and are not reported in the funds. These assets consist of (Note 5):		
Non Depreciable Capital Assets	8,102,930	
Capital Assets being depreciated/amortized	62,295,389	
Accumulated Depreciation/Amortization	(32,376,173)	
		38,022,146
Deferred inflows of resources related to the State's revenues that will be collected after year-end, but are not available soon enough to pay for the current period's expenditures are deferred in the funds.		2,919,913
Deferred outflows of resources related to pensions and OPEB (Other Postemployment Benefits) are applicable to future reporting periods and therefore, not reported in the funds.		2,315,944
Deferred outflows of resources related to asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.		665
Deferred inflows of resources related to pensions and OPEB are applicable to future reporting periods and therefore, not reported in the funds.		(1,270,038)
Deferred outflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.		1,939
Deferred inflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.		(559)
Some liabilities are not due and payable in the current period and therefore, not reported in the funds. Those liabilities consist of (Note 10):		
Due to Other Entities	(45,402)	
Other Bonds Payable	(1,520,025)	
Unamortized Bond Premium	(55,790)	
Accrued Interest on Bonds	(13,301)	
Obligation under Financed Purchases	(7,451)	
Obligation under Right-to-Use Assets - Leases	(9,588)	
Obligation under Right-to-Use Assets - Subscriptions	(15,465)	
Pollution Remediation	(65,445)	
Asset Retirement Obligations	(1,797)	
Compensated Absences	(354,658)	
Claims Liability	(34,975)	
Contingent Liabilities	(2,481,931)	
Net Other Postemployment Benefit Obligation	(2,198,811)	
Net Pension Liability	(8,425,427)	
		(15,230,066)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position.		504,056
Net Position of Governmental Activities		$ 44,653,608

The notes to the financial statements are an integral part of this statement.

STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES IN GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2025
(In Thousands of Dollars)

Net Change in Fund Balances - Total Governmental Funds		$ (36,795)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.		(23,635)
Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of $2,272,940, exceeds depreciation/amortization of $862,309 in the current period.		1,410,631
In the Statement of Activities only the gain/loss on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus the change in net position differs from the change in governmental fund balance by the net book value of the assets sold.		(28,243)
The net effect of the donation and transfers of capital assets increased net position.		18,693
Deferred inflows do not provide current financial resources and are not recognized as revenues until available in governmental funds.		193,519
Pension and OPEB (Other Postemployment Benefits) contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability and OPEB liability are measured a year before the report date. Pension expense and OPEB expense, which are the change in the net pension liability and the net change in OPEB liability, adjusted for changes in deferred outflows and inflows of resources related to pensions and OPEB, is reported in the Statement of Activities.		
Pension Contributions		914,970
Pension Expense		(1,253,668)
OPEB Contributions		99,082
OPEB Expense		64,578
Deferred outflows of resources related to deferred charges on asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.		(21)
Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Position (Note 10):		
Bonds Retired	446,275	
Financed Purchases Issued and Transfer In of Financed Purchases	(24,320)	
Financed Purchase Payments and Transfer Out of Financed Purchases	21,149	
Leases Issued and Transfer In of Lease Liability	(858)	
Lease Payments and Transfer Out of Lease Liability	40,539	
Subscription-Based Information Technology Agreements Issued	(4,967)	
Subscription-Based Information Technology Agreements Payments	36,997	
		514,815
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, not reported as expenditures in governmental funds (Note 10):		
Amortization of Bond Premium and Refunding Costs	26,930	
Decrease in Accrued Interest	3,997	
Increase in Pollution Remediation	(6,784)	
Increase in Asset Retirement Obligations	(6)	
Increase in Due to Other Entities	(3,984)	
Increase in Compensated Absences	(9,012)	
Increase in Contingent Liabilities	(32,853)	
Increase in Claims Liability	(4,099)	
		(25,811)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities.		(29,112)
Change in Net Position of Governmental Activities		$ 1,819,003

The notes to the financial statements are an integral part of this statement.

*The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.*

Proprietary Fund Financial Statements

Major Funds

State Lottery - Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation - Accounts for contributions and payments collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, *The Financial Reporting Entity,* for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, *Determining Whether Certain Entities are Component Units,* added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34,* improves financial reporting by amending GASB Statement No. 14, *The Financial Reporting Entity,* and Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,* in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government. GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14,* requires component units to be blended if they are incorporated as not-for-profit corporations and the primary government is the sole corporate member.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Governmental Funds:

Board of Fund Commissioners – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

Board of Private Investigator and Private Fire Investigator Examiners – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. The Board is appointed by the primary government. It is therefore considered a blended special revenue fund and shown in the financial statements as part of the primary government.

Note 1 - Significant Accounting Policies (cont.)

Coordinating Board for Early Childhood – The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's Office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. The majority of the board members are appointed by the primary government and, therefore, separate financial statements are not required for the Board.

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds and pay the costs of operations.

Missouri State Employee's Insurance Plan – The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Consolidated Health Care Plan (MCHCP) – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; three members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Commerce and Insurance; the Commissioner of Administration; two members of the system who are current employees; and one member of the system who is a retiree. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Note 1 - Significant Accounting Policies (cont.)

MoDOT/MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, and disability benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. The MOSERS Board of Trustees also oversees the State's Deferred Compensation Plan which is administered by a third party. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) – The System provides retirement, survivor, and disability benefits to qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the Missouri State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by the Missouri State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired Missouri State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and
Highway Patrol Employees' Retirement System
813 West Stadium Boulevard
Jefferson City, Missouri 65102-1930

Note 1 - Significant Accounting Policies (cont.)

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post-employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan – The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, if an employee contributes at least $25 a month to their account the State matches contributions up to $75. Copies of financial statements for both Plans may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
Jefferson City, Missouri 65102-0209

Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

Note 1 - Significant Accounting Policies (cont.)

Major

College and Universities — The Coordinating Board for Higher Education has certain responsibilities for these institutions and they receive State support. Following are the public college and universities included in the financial statements:

Harris-Stowe State University
3026 Laclede Avenue
St. Louis, Missouri 63103

Lincoln University
820 Chestnut Street
Jefferson City, Missouri 65102

Missouri Southern State University
3950 East Newman Road
Joplin, Missouri 64801-1595

Missouri State University
901 South National Avenue, Room 119
Springfield, Missouri 65897

University of Missouri System
118 University Hall
Columbia, Missouri 65211

Non-Major

Missouri Development Finance Board — The Board was created by state law as an independent, self-supporting, body corporate and politic to promote economic development of the State and was created within the Department of Economic Development. The Board is empowered to issue taxable, tax-exempt, and public purpose infrastructure industrial revenue bonds or notes; provide loans or loan guarantees to eligible businesses; provide loans and grants to political subdivisions to fund public infrastructure improvements; and issue tax credits against certain state income taxes in exchange for contributions made to the Board. The twelve member board is made up of the Lieutenant Governor and the Directors of the Department of Economic Development, the Department of Natural Resources, and the Department of Agriculture, who serve as ex-officio voting members, and eight members appointed by the Governor and confirmed by the Senate. Copies of the Board's financial statements may be requested from:

Missouri Development Finance Board
221 Bolivar Street, Suite 300
Jefferson City, Missouri 65102

Note 1 - Significant Accounting Policies (cont.)

Missouri Agricultural and Small Business Development Authority — The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small
Business Development Authority
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

Missouri Transportation Finance Corporation — The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities to fund highway and transportation projects throughout the State. Missouri Transportation Finance Corporation's board determines which applicants are extended loans. Copies of the Corporation's financial statements may be requested from:

Missouri Transportation Finance
Corporation
P.O. Box 270
105 West Capitol Avenue
Jefferson City, Missouri 65102

Missouri Wine and Grape Board — The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

State Environmental Improvement and Energy Resources Authority — The Authority was created by state law and is authorized to finance, acquire, construct, and equip projects to reduce, prevent, and control pollution and develop the energy resources of the State. The Authority is governed by a five-member board appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's annual report may be requested from:

State Environmental Improvement and
Energy Resources Authority
425 Madison Street
Jefferson City, Missouri 65101

Note 1 - Significant Accounting Policies (cont.)

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

Missouri Health and Educational Facilities Authority — finances health and educational facilities.

Missouri Higher Education Loan Authority — provides a secondary market for loans made under the Federal Family Education Loan Program.

Missouri Housing Development Commission — finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

Missouri Technology Corporation — promotes the modernization of businesses through the development of science and technology applications.

Missouri Public Entity Risk Management Fund — provides liability protection to participating public entities, their officials, and employees.

Jackson County Sports Complex Authority — responsible for construction, operation, and financing of the Jackson County Sports Complex.

Kansas City Regional Sports Complex Authority — responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

St. Charles County Convention and Sports Facility Authority — responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization — organized for boll weevil eradication.

Universal Service Board — organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

Interstate Commission for Adult Offender Supervision — responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

Board of Trustees of the Missouri Mesothelioma Risk Management Fund — provides coverage of liabilities for participating employers relating to mesothelioma awards.

P-20 Council — organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

Missouri Propane Safety Commission — responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

Missouri Family Trust Board of Trustees — provides trust services for persons with disabilities.

Note 1 - Significant Accounting Policies (cont.)

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

Note 1 - Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, private-purpose trust, and custodial fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets, deferred outflows, liabilities, and deferred inflows associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes and licenses, fees, and permits.

Missouri Road Fund – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

Note 1 - Significant Accounting Policies (cont.)

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and custodial funds. These funds account for assets held by the State in a trustee or custodial capacity for individuals, other governments, and other entities.

Discretely Presented Component Units:

Major

College and Universities account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of 92 days or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. This definition excludes Fiduciary funds. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3)*.

Note 1 - Significant Accounting Policies (cont.)

E. Investments

These are long-term investments with an original maturity greater than 92 days, which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. Repurchase agreements, certificates of deposit, and overnight commercial paper held by the State Treasurer's Office are reported at amortized cost. The Missouri State Public Employees' Deferred Compensation Plan and the Missouri State Public Employees' Deferred Compensation Incentive Plan report their Stable Value Funds at contract value. The Missouri State Employees' Retirement System reports their cash held in investment accounts and repurchase agreements at cost plus accrued interest. All other investments of the State are reported at fair value.

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and custodial funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15)*. These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units or the fiduciary funds are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as "advances from other funds" or "advances from primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15)*. These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

Note 1 - Significant Accounting Policies (cont.)

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated acquisition value at the time received. Assets the State has the right to use per lease or subscription agreements are capitalized at the inception of the lease term and capital assets acquired through financed purchases are capitalized at the date the obligation is established (see *Notes 5, 6, and 11)*.

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, communication towers, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – $15,000, buildings and improvements – $15,000, software and trademarks – $5,000, equipment – $5,000, right-to-use land – $20,000, right-to-use buildings – $50,000, right-to-use equipment – $5,000, right-to-use temporary easements – $5,000, right-to-use software – $50,000 and right-to-use infrastructure – $100,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, infrastructure – 12 to 50 years, right-to-use land – lease term, right-to-use software – shorter of lease term or useful life, right-to-use buildings – shorter of lease term or useful life, right-to-use equipment – shorter of lease term or useful life, right-to-use temporary easement – shorter of lease term or useful life, and right-to-use infrastructure – shorter of the lease term or useful life. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 to 15 years, software – 3 to 5 years, right-to-use land – lease term, right-to-use buildings – shorter of lease term or useful life, right-to-use equipment – shorter of lease term or useful life, and right-to-use infrastructure – shorter of the lease term or useful life.

J. Obligations Under Right-To-Use Assets

Leases and subscriptions, where the State of Missouri is the lessee, are recognized based on the present value of future lease/subscription payments over the contract term. A lease/subscription liability and an intangible right-to-use lease/subscription asset are recognized including right-to-use land, buildings, equipment, communication infrastructure, temporary easements, and subscriptions. Lease/subscription right-to-use assets are reported with capital assets, and lease/subscription liabilities are reported as long-term debt in the statement of Net Position (see *Notes 5, 6, and 10)*. The right-to-use lease/subscription assets are amortized over the term of the lease/subscription or the underlying asset's useful life, whichever is shorter.

Note 1 - Significant Accounting Policies (cont.)

Leases, where the State of Missouri is the lessor, a lease receivable and a deferred inflow of resources are recognized based on the present value of lease payments over the contract term (see *Notes 13 and 14)*. Types of assets the State leases as a lessor include land and buildings. The deferred inflow of resources is amortized evenly over the life of the lease.

K. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position/Balance Sheet may report a separate line item for deferred outflows of resources. Deferred outflows of resources consist of the decrease of net position by the State that is applicable to a future reporting period and will not be recognized as outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position/Balance Sheet may report a separate line item for deferred inflows of resources. Deferred inflows of resources consist of the increase of net position by the State that is applicable to a future reporting period and will not be recognized as inflow of resources (revenue) until then.

L. Unearned Revenues

Unearned revenues are amounts collected in advance of the year in which earned.

M. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 10)*.

2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 11)*.

3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Missouri Development Finance Board, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental and enterprise funds when paid (see *Note 11)*.

4. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium and discount.

   In the fund financial statements, governmental fund and enterprise fund types recognize bond premiums and discounts during the current period. Premiums and discounts on debt issuances are reported as other financing sources (see *Note 10)*.

5. Obligations under right-to-use assets - leases, right-to-use assets - subscription-based information technology arrangements, and financed purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11)*.

Note 1 - Significant Accounting Policies (cont.)

6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 22)*.

7. Asset Retirement Obligations are measured based on the best estimate of the current value of outlays expected to be incurred. These liabilities include all legally enforceable amounts associated with the future retirement of a tangible capital asset. Liabilities and expenditures are recognized for goods and services used for asset retirement activities upon receipt of those goods and services (see *Note 23*).

8. Compensated absences include accumulated unpaid vacation, sick, compensatory, and other leave time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds, but are recorded as expenditures when paid (see *Note 10)*.

   Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

   Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Sick Leave is accumulated as earned by an individual employee. Any unused sick leave liability that remains when an employee terminates employment is not paid upon employee termination. However, unused sick leave may be converted to additional credited service upon retirement (usable only for benefit computation, not eligibility).

9. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred, but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 21* and *24*).

10. The State provides postemployment health care (OPEB) and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT/ MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer defined benefit plan, while MHPML and CEIP are single-employer defined benefit plans. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The University of Missouri's OPEB plan is a single-employer defined benefit plan for all qualified employees.

    For the purposes of measuring the total/net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from have been recognized on the same basis as they are reported by the plans. Employer contributions are recognized as revenue and reported when due and payable. Benefits are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value (see *Note 8)*.

Note 1 - Significant Accounting Policies (cont.)

11. The State has two major retirement systems which cover substantially all State employees and a retirement plan for University of Missouri employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple employer defined benefit public employee retirement plan administered by MOSERS. MOSERS also administers the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employee retirement plan. The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees.

    For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see *Note 7).*

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

N. Net Position and Fund Balance

The difference between fund assets, deferred outflows, liabilities, and deferred inflows is reported as "Net Position" on the government-wide, proprietary, fiduciary, and component unit fund statements and "Fund Balance" on the governmental fund financial statements.

Net Position is reported in three categories:

Net Investment in Capital Assets – An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributed to acquisition, construction, or improvement of those assets.

Restricted Net Position – An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2025, net position restricted by enabling legislation equaled $1,172,280,000 for governmental activities.

Unrestricted Net Position – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

Governmental Fund Balance Classifications

The State's fund balances are classified as:

Nonspendable – Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

Note 1 - Significant Accounting Policies (cont.)

Restricted – Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the restraints.

Assigned – Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed. The constraint for assigned fund balance is established by the Revised Statutes of the State of Missouri.

Unassigned – Amounts that do not meet the criteria of any of the classifications listed above.

Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

O. Interfund Transactions

During the fiscal year, the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions consist of these three types:

1. Transactions that would be treated as revenues or expenditures/expenses, if they involved organizations external to the State, are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered.

2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.

3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16)*. These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the governmental activities are eliminated at the Government-Wide Statement of Activities.

P. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

Property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2025:

- GASB Statement No. 101, *Compensated Absences,* amends the method of recognition and measurement of compensated absences. The implementation of this statement is reflected in *Note 17 - Restatements* and on the face of the financial statements.

- GASB Statement No. 102, *Certain Risk Disclosures,* provides essential details and discloses timely information regarding certain concentrations or constraints and related events that have occurred or have begun to occur which result in a substantial impact. The implementation of this statement did not have an impact on the financial statements.

Note 3 - Deposits and Investments

The State Treasurer's Office maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2025.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer's Office to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% in excess of FDIC coverage with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Primary Government

At June 30, 2025, the bank balance of the primary government's deposits was $2,494,596,000. Of the bank amount, $9,927,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institutions, $1,182,936,000 was held by the U.S. Treasury, and the remainder was not exposed to custodial risk.

Fiduciary

At June 30, 2025, the bank balance of the deposits of the fiduciary funds was $66,544,000.

Component Units

Information on the component units' deposits is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

B. Investments

Statutes authorize the State Treasurer's Office to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury, or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2025.

The State Treasurer's Office minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer's Office also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the State Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer's Office minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, US Bank Trust Services or at one of the State Treasurer's Office approved collateral custodians.

Primary Government

At June 30, 2025, the reported amount of the primary government's investments was $15,486,969,000. Of the bank amount, $3,711,000 was exposed to custodial credit risk by being uninsured and unregistered, with securities held by a counterparty in the State's name.

Fiduciary

At June 30, 2025, the reported amount of the fiduciary funds' investments was $19,522,054,000.

Component Units

Information on the component units' investments is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer's Office. The externally-held internal service funds, the custodial and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer's Office minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 3.5 years, and holding at least 30% of the portfolio's total market value in securities with a maturity of 12 months or less.

*The State Treasurer's Office reports their repurchase agreements in the amount of $1,774,000 at amortized costs. The Missouri State Public Employees Deferred Compensation Plan and the Missouri State Public Employees Deferred Compensation Incentive Plan reports their Stable Value Funds in the amounts of $542,000 and $274,000 respectively, at contract value. The Missouri State Employees' Retirement System reports their cash held in investment accounts and repurchase agreements in the amount of $2,057,000 at cost plus accrued interest.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer's Office from investing more than 15% of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 10% of the total portfolio per issuer and no more than 15% of the total portfolio may be invested in repurchase agreements with a single counterparty. Addendum A to the investment policy limits the total amount of linked deposits a financial institution may receive to 20% of the statutory cap set forth in Section 30.753.1, RSMo. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2025, the State did not have any instances of noncompliance with these requirements and policies.

Note 3 - Deposits and Investments (cont.)

Fair Value Measurement

The State of Missouri categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurements and Application.* The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

- Level 1 – Unadjusted quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are unobservable.
- Level 3 – Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lower level input that is significant to the valuation. The State's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The State Treasurer's Office uses the market approach for the determination of the fair value of investments, except for repurchase agreements, overnight commercial paper and certificates of deposit, which are measured at amortized costs.

Debt, equities, and investment derivatives classified in level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Debt securities and liabilities classified in level 2 have non-proprietary information that was readily available to market participants from multiple independent sources, which are known to be actively involved in the market. Pricing inputs may include market quotations, yields, maturities, call features, and ratings. A portion of the derivative securities classified in level 2 are securities whose values are derived daily from associated traded securities. Other investments listed as level 2 include debt securities where an independent pricing evaluator had direct observable information, including: trading volume, multiple sources of market data and benchmark spreads. Foreign exchange forwards are included due to the valuation coming from observable forward rates on the underlying currencies. The equity index swap is included because valuation inputs include an observable interest rate and the underlying index.

Investments listed as level 3 include debt securities where an independent pricing evaluator did not have direct observable information for comparable securities. Significant inputs used in the valuation are not available aside from the evaluator providing the price. Direct investments in private equity, real estate, credit, and real assets are included because the valuation techniques utilize discounted cash flows or other non-observable market information.

Total investments measured at NAV	$7,803,105	$ 1,002,515		

The following is a description of valuation methodologies used for assets recorded at fair value.

[1]Equity market neutral hedge fund – This value is 100% from MOSERS. This consists of one fund whereby the strategy invests in both long and short in U.S. and global equity securities, with the goal of having little to no net market exposure. This investment is valued at NAV, is redeemable semi-annually, and is not subject to lock-up restrictions.

[2]Fund-of-funds – This value is 100% from MOSERS. Consisting of five funds, these funds seek to provide diversification by holding a number of funds within a single fund structure. These investments are valued at the NAV, are redeemable monthly or quarterly, and are subject to liquidation of the underlying funds.

[3]Pending liquidated hedge funds – This value is 88.8% from MOSERS and 11.2% from MPERS. MOSERS has five funds that have been fully redeemed as of June 30, 2025, which are awaiting final distribution of the proceeds, and will be received upon sale of the underlying investments or upon completion of the audit of the MOSERS's annual financial statements. MPERS has a small investment in two hedge funds that are in liquidation and have been closed. MPERS is awaiting the sale of the final assets.

Note 3 - Deposits and Investments (cont.)

[4]Merger arbitrage hedge fund – This value is 100% from MOSERS. Consisting of one fund, this strategy invests in the common stock of companies that are involved in publicly announced mergers and seeks to generate attractive returns while dampening volatility. This investment is valued at NAV, is redeemable monthly, and is not subject to lock-up restrictions.

[5]Multi-strategy hedge fund – This value is 82.2% from MOSERS and 17.8% from MPERS. Consisting of six funds for MOSERS and one fund for MPERS, these funds aim to pursue varying strategies in order to diversify risks and reduce volatility. These investments are valued at NAV, are redeemable monthly, quarterly, or semi-annually, but are subject to lock-up restrictions for MOSERS. Due to contractual lock-up restrictions, the value of the fund is eligible for redemption in the next six months for MPERS.

[6]Opportunistic Debt – This value is 100% from MPERS. Consisting of one fund, this investment uses public, but illiquid, fixed income structuring to achieve higher returns by separating and securitizing the unique credit risk tranches.

[7]Quantitative hedge funds – This value is 100% from MOSERS. Consisting of two funds, this strategy attempts to achieve uncorrelated returns using advanced statistical methods to select securities across liquid public markets and systematic volatility trading. These investments are valued at NAV, are redeemable monthly, and are not subject to lock-up restrictions.

[8]Securitized credit hedge fund – This value is 100% from MOSERS. Consisting of two funds, this strategy invests in investment grade synthetic securitizations primarily in the U.S. and Europe. This investment is valued at NAV. The fund liquidation is determined by the funds governing documents which will lead to investor's capital being returned.

[9]Structured credit – relative value – This value is 100% from MOSERS. Consisting of one fund for MOSERS, this strategy invests liquid volatility-related instruments in listed futures and options primarily in U.S. markets, with the goal of having little to no net market exposure. This investment is valued at the NAV, is redeemable monthly, and is not subject to lock-up restrictions.

[10]Commingled fixed income funds – This value is 100% from MOSERS. Consisting of one fund, this strategy is considered commingled in nature. These investments are valued at the NAV held at the end of the period based upon the fair value of the underlying investments.

[11]Commingled short-term investment fund – This value is 100% from MOSERS. One short-term investment fund is considered commingled in nature. This investment is valued at the NAV held at the end of the period based upon the fair value of the underlying investments.

[12]MOSERS Investment Portfolio (MIP) fund – This value is 79.3% from the Deferred Compensation Plan and 20.7% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur monthly. The significant investment strategies are designed to achieve long-term total returns, comprised of capital appreciation and income. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments.

[13]Missouri target date funds – This value is 81.4% from Deferred Compensation Plan and 18.6% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur daily. The significant investment strategies of the funds are to seek the highest total return over time, consistent with the fund's asset mix. The asset allocations within these target date funds adjust automatically over time. Each fund invests more aggressively in its early years and becomes more conservative as it reaches its time horizon. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments.

[14]Private real estate funds – This value is 100% from MPERS. MPERS invests in two core private real estate funds that are commingled in nature. One is eligible for redemption on a quarterly basis and one on a daily basis.

Note 3 - Deposits and Investments (cont.)

[15]Private market funds – This value is 100% from MOSERS. MOSERS' private markets portfolio consists of 56 funds with exposure to buyout funds, direct lending, distressed funds, infrastructure, energy, secondary, special situations, and U.S. commercial real estate. The fair values of the majority of these funds have been determined using net assets valued one quarter in arrears plus current quarter cash flows. Most of these funds are not eligible for redemption. Distributions are received as underlying investments when the funds are liquidated, which, on average, can occur over the span of 5 to 10 years.

[16]Macro hedge funds - This value is 100% from MOSERS. Consisting of one fund, this strategy invests in equities, bonds, foreign exchange and commodities forecasting and trading on central bank policy in emerging markets. This investment is valued at NAV and is redeemable quarterly, and is not subject to lock-up restrictions.

The State Treasurer's Office requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments.

The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.7, RSMo. U.S. Bank acts as the securities lending agent and as the State Treasurer's custodial bank.

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The maximum duration gap between loans and investments shall be 15 days. The maximum life of term loans shall be 90 days. U.S. Bank provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2025, the State Treasurer's Office had an aggregate fair value of securities lent of $1,126,413,000 and an aggregate fair value of collateral received of $1,126,413,000.

Note 3 - Deposits and Investments (cont.)

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Fixed income, international equity and domestic equity securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of fair value for domestic loans and 105% of fair value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default.

MOSERS had no securities lending activity in fiscal year 2025.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. MPERS custodial bank, Northern Trust, is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

MPERS may lend securities and receive cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. MPERS cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers are required to deliver collateral for each loan equal to: 1) 102% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities denominated in United States dollars or whose primary trading market is located in the United States, and 2) 105% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States.

MPERS did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

MPERS and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2025, the cash collateral fund had a fair value of $27,347,000.

At June 30, 2025 and June 30, 2024, MPERS had earned $134,000 and $196,000 respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

D. Derivatives

Missouri State Employees' Retirement System:

While the Board has no formal policy specific to derivatives, Missouri State Employees' Retirement System (MOSERS), through its external investment managers, holds investments in futures contracts and swap contracts. MOSERS enters into these certain derivative instruments as investments primarily to enhance the performance and reduce the volatility of its portfolio. It enters swaps and futures contracts to gain or hedge exposure to certain markets and to manage interest rate risk. For the year ended June 30, 2025, the change in fair value of the swap contracts resulted in a gain of $318.0 million of investment income. The change in fair value in the futures contracts resulted in a loss of $13.8 million of investment income. MOSERS does not anticipate additional significant market risk from the derivative arrangements. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligations as credit evaluations and credit limits are monitored by the investment managers.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2025. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Futures Contracts:

Notional Amount	Exposure
$(54,550)	$(113)

Swap Contracts:

Notional Amount	Counterparty Exposure
$5,267,087	$157,520

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

MPERS has an investment policy which holds investments in future contracts, swap contracts, options contracts, and forward foreign currency exchange contracts. Derivative financial instruments involve credit risk and market risk. The notional value related to these derivative instruments are generally not recorded on the financial statements; however, the change in fair value of these instruments is incorporated in performance.

The following table (in thousands of dollars) summarizes the various contracts in MPERS portfolio as of June 30, 2025. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Type	Notional/Fair Value	Unrealized Gain (Loss)
Futures Contracts	$ 761,417	$ 103,039
Swap Contracts	528,667	69,197
Total	$ 1,290,084	$ 172,236

Note 3 - Deposits and Investments (cont.)

Through the use of derivatives, MPERS is exposed to risk that the counterparties involved in the contracts are unable to meet the term of their obligation. MPERS investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. MPERS anticipates the counterparties will be able to satisfy their obligations under the contracts. The counterparties' credit ratings for swaps are subject to credit risk as shown in the table below (in thousands of dollars).

Quality Rating	Swaps
A+	$ 528,667
Total Subject to Credit Risk	$ 528,667

Component Units:

Information on the component units derivatives is available within their individual financial statements.

E. Assets Held in Escheat

The Unclaimed Property Division of the Missouri State Treasurer's Office holds unclaimed stocks, bonds, mutual fund positions, and other securities that have been turned over by their holders on behalf of the securities' owners. The State takes custody of these securities until the owner claims them or if unclaimed, liquidates them after 18 to 24 months. The State holds the securities in order to return them to their owners. The State does not report these securities as investments because they do not meet the Governmental Accounting Standards Board's definition of "investments". This is because the State does not hold the securities for income or profit, nor do the securities have a present service capacity for the State. A total of $25,439,000 of these unclaimed securities is shown as "Assets Held in Escheat" on the private-purpose trust funds combining statement of fiduciary net position in Unclaimed Property.

Note 4 - Governmental Fund Balance

Fund Balance Classifications by Purpose – In the basic financial statements, the fund balance classifications are presented in the aggregate. The following displays the fund balances by major purpose (in thousands of dollars):

A. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the Governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the Governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each House. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2025, was $950,938,000.

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2025, was as follows (in thousands of dollars):

	*Balance July 1, 2024	Increases	Decreases	Balance June 30, 2025
Governmental Activities:				
Capital Assets not being Depreciated/Amortized:				
Construction in Progress	$ 362,407	$ 244,659	$ (128,160)	$ 478,906
Software in Progress	256,074	94,839	(81,070)	269,843

Note 6 - Obligations Under Right-to-Use Assets

Lease Agreements for Right-to-Use Assets excluding Software:

The State has entered into various agreements to lease land, buildings, equipment, infrastructure and temporary easements. GASB Statement No. 87, *Leases*, requires that the State, as a lessee, recognize a lease liability and an intangible right-to-use lease asset (lease asset). The lease liability and lease asset are recognized at the commencement date of the lease based on the estimated present value of lease payments over the lease term.

Lease liability for the internal service and enterprise funds are reported as a long-term obligation in those funds along with the related assets. Leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of future minimum payments due for leases (in thousands of dollars):

	Governmental Activities		Business-Type Activities	
Fiscal Year Ended June 30	Principal	Interest	Principal	Interest
2026	$ 6,818	$ 1,488	$ 483	$ 58
2027	6,482	1,248	471	43
2028	5,156	1,036	331	29
2029	4,432	872	237	19
2030	3,702	731	149	13
2031-2035	4,240	2,896	313	11
2036-2040	1,608	2,471	—	—
2041-2045	768	2,271	—	—
2046-2050	763	2,149	—	—
2051-2055	458	2,043	—	—
2056-2060	543	1,959	—	—
2061-2065	643	1,858	—	—
2066-2070	762	1,739	—	—
2071-2075	903	1,598	—	—
2076-2080	1,070	1,431	—	—
2081-2085	1,268	1,233	—	—
2086-2090	1,503	998	—	—
2091-2095	1,781	720	—	—
2096-2100	2,111	391	—	—
2101-2105	1,196	53	—	—
Total	$ 46,207	$ 29,185	$ 1,984	$ 173

Certain lease contracts include variable payments, residual value guarantees or termination penalties that are not known or certain to be exercised at the time of the calculation of the lease liability. These are recognized as expenses in the period they are incurred. For the fiscal year ended, June 30, 2025, there were no such variable payments excluded from the measurement of the lease liability. There were also no termination penalties or residual value guarantee payments expensed for the fiscal year ended, June 30, 2025.

Note 6 - Obligations Under Right-to-Use Assets (cont.)

Discretely Presented Component Units

Following is a summary of future minimum payments due for leases (in thousands of dollars):

Fiscal Year Ended June 30	College and Universities*		Non-Major Component Units

Total	$ 99,492	$ 15,746	$ 540	$ 179

*Harris-Stowe's financial information is based on their June 30, 2024, Annual Comprehensive Financial Report.

For the fiscal year ended, June 30, 2025, there were no variable payments excluded from the measurement of the lease liability for discretely presented component units. There were no termination penalties or residual value guarantee payments expensed for the fiscal year ended, June 30, 2025.

Subscription Based Information Technology (SBITA) Agreements:

The State has entered into various agreements to subscription software. GASB Statement No. 96, *Subscription Based Internet Technology Agreements (SBITAs)*, requires that the State, as a subscriber, recognize a subscription liability and an intangible right-to-use subscription asset (right-to-use software). The subscription liability and subscription asset are recognized at the commencement date of the subscription based on the estimated present value of lease payments over the lease term.

Subscription liability for the internal service and enterprise funds are reported as a long-term obligation in those funds along with the related assets. Subscriptions and the related assets are not reported on the fund financial statements of governmental type funds. However, the subscriptions and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Note 6 - Obligations Under Right-to-Use Assets (cont.)

Following is a summary of future minimum payments due for subscriptions (in thousands of dollars):

Fiscal Year Ended June 30	Governmental Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2026	$ 10,542	$ 576	$ 161	$ 4
2027	3,968	225	102	1
2028	1,974	85	—	—
2029	691	31	—	—
2030	551	11	—	—
2031-2035	45	—	—	—
Total	$ 17,771	$ 928	$ 263	$ 5

Certain lease contracts include variable payments, residual value guarantees or termination penalties that are not known or certain to be exercised at the time of the calculation of the subscription liability. These are recognized as expenses in the period they are incurred. For the fiscal year ended, June 30, 2025, there were no such variable payments excluded from the measurement of the subscription liability. There were also no termination penalties or residual value guarantee payments expensed for the fiscal year ended, June 30, 2025.

Discretely Presented Component Units

Following is a summary of future minimum payments due for subscriptions (in thousands of dollars):

Fiscal Year Ended June 30	College and Universities*	
	Principal	Interest
2026	$ 23,482	$ 2,303
2027	23,161	1,866
2028	16,546	1,335
2029	13,882	670
2030	11,216	339
2031-2035	3,907	594
Total	$ 92,194	$ 7,107

*Harris-Stowe's financial information is based on their June 30, 2024, Annual Comprehensive Financial Report.

For the fiscal year ended, June 30, 2025, there were no variable payments excluded from the measurement of the lease liability for discretely presented component units. There were no termination penalties or residual value guarantee payments expensed for the fiscal year ended, June 30, 2025.

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all State employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). MOSERS is comprised of the Missouri State Employees' Plan (MSEP), a cost-sharing multiple-employer, defined benefit public employee retirement plan and the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employees' retirement plan.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 104.010 and 104.312-104.1215, RSMo.

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000, and before January 1, 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

The Judicial Plan is a single-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 476.445 - 476.690, RSMo. The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. General employees are fully vested after 5 years of creditable service if covered by the MSEP, MSEP 2000, and MSEP 2011 plans. Elected officials are fully vested after 4 years of creditable service and Members of the General Assembly are fully vested after 6 years of creditable service. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The retirement eligibility requirements are as follows for general employees:

MSEP

- Age 65 with 5 years of service
- Age 60 with 15 years of service
- Age 48 with age and service equaling 80 or more (Rule of 80)
- Employees may retire early at age 55 with at least 10 years of service with reduced benefits.
- The base benefit in the general employee plan is equal to 1.6% multiplied by the final average pay multiplied by years of credited service.

MSEP 2000

- Age 62 with 5 years of service
- Age 48 with age and service equaling 80 or more (Rule of 80)
- Employees may retire early at age 57 with at least 5 years of service with reduced benefits.
- The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

Judicial Plan

- Age 62 with 12 years of service
- Age 60 with 15 years of service
- Age 55 with 20 years of service
- Employees may retire early at age 62 with less than 12 years of service or age 60 with less than 15 years of service with a reduced benefit that is based upon years of service relative to 12 or 15 years.
- The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Judicial Plan 2011

- Age 67 with 12 years of service
- Age 62 with 20 years of service
- Employees may retire early at age 67 with less than 12 years of service with reduced benefits or age 62 with less than 20 years of service with a reduced benefit based on years of service.
- The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Note 7 - Retirement Systems (cont.)

MSEP 2011
Age 67 with 5 years of service
Age 55 with age and service equaling 90 or more (Rule of 90)
Employees may retire early at age 62 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, and members who have met their COLA cap receive COLAs annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, inactive-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their future benefit in a lump sum payment. To qualify, a member must have left state employment on or after October 1, 1984, and prior to September 1, 2002, have less than 10 years of service, not be within 5 years of retirement eligibility, meet age requirements, and have a benefit present value of less than $10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer, defined benefit public employee retirement plan administered in accordance with Sections 104.010-104.1093, RSMo.

MPERS is considered a single-employer plan because its membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan-2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000, and before January 1, 2011. The Year 2000 Plan-2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 5 years of creditable service if they were active on or after January 1, 2018.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:	**Uniformed patrol members:**
Age 65 and active with 4 or more years of service	Age 55 and active with 4 or more years of service
Age 65 with 5 or more years of service	Age 55 with 5 or more years of service
Age 60 with 15 or more years of service	Age 48 with sum of age and service equaling 80 or more (Rule of 80)
Age 48 with sum of age and service equaling 80 or more (Rule of 80)	Mandatory retirement at age 60

All non-uniformed members may retire early, with reduced benefits, at age 55 with at least 10 years of service.

The base benefit in the Closed Plan is equal to 1.6% multiplied by the final average pay multiplied by years of creditable service for non-uniformed members. For members of the uniformed patrol, the base benefit is equal to 1.3333% multiplied by the final average pay multiplied by years of creditable service.

Note 7 - Retirement Systems (cont.)

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the increase in the Consumer Price Index for all urban consumers for the United States (CPI-U). The minimum rate is 4% and the maximum rate is 5%, until the cumulative amount of COLAs equals 65% of the original benefit. Thereafter, the 4% minimum rate is eliminated and the annual COLA rate will be equal to 80% of the increase in the CPI-U (annual maximum of 5%). For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:	**Uniformed patrol members:**
Age 62 with 5 or more years of service	Age 48 with sum of age and service equaling 80 or more (Rule of 80)
Age 48 with sum of age and service equaling 80 or more (Rule of 80)	Mandatory retirement at age 60

All members may retire early with reduced benefits at age 57 with at least 5 years of service.

The base benefit in the Year 2000 Plan is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 80, and uniform patrol members retiring at the mandatory retirement age (currently 60), receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:	**Uniformed patrol members:**
Age 67 with 5 or more years of service	Age 55 and active with 5 or more years of service
Age 55 and active with sum of age and service equaling 90 or more (Rule of 90)	Mandatory retirement at age 60 with no minimum service amount, active only.

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 5 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 5 or more years of service.

The base benefit in the 2011 Tier is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 90, and uniform patrol members retiring at the mandatory retirement age (currently 60) or at age 55 with 5 years of creditable service, receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Single-Employer Plans:

Employees Covered by Benefit Terms – Single-Employers Only

As of June 30, 2024, valuation, membership consisted of the following:

	Judicial Plan	MPERS
Retirees, beneficiaries, and the disabled currently receiving benefits	626	9,740
Terminated employees entitled to, but not yet receiving benefits	30	2,205
Active		
Vested	424	4,723
Nonvested	—	2,156
Total Membership	1,080	18,824

Note 7 - Retirement Systems (cont.)

Contributions

Per Chapter 104.436, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.00% of their annual pay. The State's required contribution rates for the MSEP and the Judicial Plan for the year ended June 30, 2024, were 27.26% and 59.83% of annual payroll, respectively. The contribution rates as a percentage of covered payroll for the MSEP and the Judicial Plan for the year ended June 30, 2024, were 27.26% and 59.83%, respectively. Contributions to the pension plan through the MSEP and the Judicial Plan were $569,754,000 and $40,751,000 respectively, for the year ended June 30, 2024.

Per Chapter 104.070, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MPERS Board of Trustees. Beginning January 1, 2011, employee contributions of 4.00% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Employer contributions are determined through annual actuarial valuations. Administrative expenses are financed through contributions from participating employers and investment earnings. The State's required contribution rate, as adopted by the MPERS Board of Trustees, for the year ended June 30, 2024, was to be at least 58.00%. The contribution rate as a percentage of covered payroll for the MPERS plan year ended June 30, 2024, was 58.00%. Contributions to the pension plan from the MPERS plan were $254,358,000.

For the portion of the MSEP Plan relating to the State's component units, the required contribution rate for the year ended June 30, 2024, was 27.26%. The contribution rates as a percentage of covered payroll for the year ended June 30, 2024, was 27.26%. Contributions to the pension plan were $96,359,000 for the year ended June 30, 2024.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2025, a liability was reported for the State's proportionate share of the net pension liability for the MSEP and the MSEP-CU plans based on an actuarial valuation as of June 30, 2024. The State's proportionate share of the net pension liability was based on the State's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for plan year ended June 30, 2024.

The State reported the following proportionate share of the net pension liability and the pension expense for the fiscal year ended June 30, 2025 (in thousands of dollars):

	MSEP	MSEP-CU
Pension Expense	$1,052,387	$ 136,932
Proportionate share:		
2025	85.17 %	14.40 %
Net Pension Liability	$6,912,497	$1,169,065

Note 7 - Retirement Systems (cont.)

Single-Employer Plans:

The State's net pension liability and related information for the Judicial and MPERS plans for the fiscal year ended June 30, 2025, (in thousands of dollars):

	Judicial Plan Increase (Decrease)			MPERS Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Pension (b)	Net Pension Liability (a) – (b)	Total Pension Liability (a)	Plan Fiduciary Net Pension (b)	Net Pension Liability (a) – (b)
Balances at June 30, 2024	$ 654,243	$ 190,227	$ 464,016	$4,709,392	$ 3,281,628	$ 1,427,764
Changes for the year:						
Service Cost	13,144	—	13,144	57,997	—	57,997
Interest	43,797	—	43,797	298,243	—	298,243
Differences Between expected and actual experience	12,831	—	12,831	197,773	—	197,773
Contributions – Employer	—	40,748	(40,748)	—	254,358	(254,358)
Contributions – Employee	—	2,030	(2,030)	—	15,882	(15,882)
Net Income Investment	—	12,647	(12,647)	—	432,122	(432,122)
Benefit payments, including refunds of employee contributions	(48,979)	(48,979)	—	(300,081)	(300,081)	—
Administrative Expense	—	(99)	99	—	(6,251)	6,251
Net Changes	20,793	6,347	14,446	253,932	396,030	(142,098)
Balances at June 30, 2025	$ 675,036	$ 196,574	$ 478,462	$4,963,324	$ 3,677,658	$ 1,285,666

For the year ended June 30, 2025, the Judicial Plan and MPERS recognized pension expense of $45,536,000 and $193,826,000, respectively.

Note 7 - Retirement Systems (cont.)

At June 30, 2025, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU	MSEP	Judicial	MPERS	MSEP-CU
Difference between expected and actual experience	$ 335,783	$17,394	$249,045	$ 56,789	$ —	$ 2,980	$ 920	$ —
Changes of assumptions	—	—	29,560	—	—	167	—	—
Net difference between projected and actual earnings on pension plan investments	466,213	12,517	—	78,847	—	—	295,253	—
Changes in proportion and differences between plan contributions and proportionate share of contributions	36,100	—	—	1,389	155	—	—	37,224
Contributions subsequent to the measurement date	638,957	44,481	252,427	106,955	—	—	—	—
Total	$1,477,053	$74,392	$531,032	$243,980	$ 155	$ 3,147	$296,173	$37,224

Amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the measurement period of the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands of dollars):

	Net Deferred Outflows/Inflows of Resources			
Fiscal Year Ended June 30	MSEP	Judicial	MPERS	MSEP-CU
2026	$ 357,731	$ 5,710	$ (17,782)	$ 27,075
2027	402,745	14,076	73,304	59,625
2028	72,814	5,611	(29,092)	12,314
2029	4,651	1,367	(43,998)	787
Totals	$ 837,941	$ 26,764	$ (17,568)	$ 99,801

Actuarial Assumptions

The total pension liability at June 30, 2025, is based upon the June 30, 2024, actuarial valuation for MOSERS and MPERS using the entry age normal actuarial cost method. Significant actuarial assumptions used in the June 30, 2024, actuarial valuations are the following:

	MSEP and MSEP-CU	Judicial	MPERS
Price Inflation	2.25 %	2.25 %	2.25 %
Salary Increases	2.75% -10.00%	3.00 %	3.00%-10.50%
Investment Rate of Return	6.95 %	6.95 %	6.50 %

Note 7 - Retirement Systems (cont.)

The actuarial assumptions used in the June 30, 2024, valuation were based on the results of an actuarial experience study covering the five-year period ended June 30, 2020, performed in 2021, for MOSERS. There were no changes in Benefit terms and assumptions for the year ended June 30,2024. For the MSEP Plan, the pre-retirement mortality rates were based on the Pub-2010 General Members Below Median Employee mortality table; the post-retirement mortality rates for retirees were based on the Pub-2010 General Members Below Median Healthy Retiree mortality table, scaled by 104%; the post-retirement mortality rates for beneficiaries were based on the Pub-2010 General Members Below Median Contingent Survivor mortality table; mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020, all tables were set back two years for males and set forward one year for females. For the Judicial Plan, the pre-retirement mortality rates were based on the Pub-2010 General Members Median Employee mortality table; the post-retirement mortality rates for retirees were based on the Pub-2010 General Members Median Healthy Retiree mortality table; the post-retirement mortality rates for beneficiaries were based on the Pub-2010 General Members Median Contingent Survivor mortality table; mortality was projected generationally from 2010 to 2020 using Scale MP-2020 and 75% of Scale MP-2020 for years after 2020.

Amounts reported in the June 30, 2024, actuarial report are assumptions reflecting adjustments to expected rates of withdrawal, disability, normal and early retirement, mortality, and merit and seniority pay for MPERS. The actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2017. Mortality rates, for post-retirement mortality, used in evaluating allowances to be paid to non-disabled pensioners were the RP-2014 Healthy Mortality Tables projected to 2022 using projection scale MP-2017. The pre-retirement mortality used were the RP-2014 Employee Mortality Table projected to 2022 using projection scale MP-2017 and multiplied by a factor of 65%. Disabled pension mortality was based on RP-2014 Disabled Retiree Annuitant Mortality Tables projected to 2022 using projection scale MP-2017.

The long-term (30 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of the real rates of return for the MSEP and Judicial Plan and arithmetic real rates of return for MPERS for each major asset class included in the target allocation are summarized in the table below:

Note 7 - Retirement Systems (cont.)

Target Asset Allocation

	MSEP and MSEP-CU		Judicial		MPERS	
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	30.0%	7.7%	30.0%	7.7%	40.0%	2.4%
Private Equity	15.0%	9.3%	15.0%	9.3%	10.0%	6.1%
Fixed Income					22.5%	2.4%
Real Assets					10.0%	4.0%
Real Estate					10.0%	3.4%
Hedge Funds	5.0%	4.8%	5.0%	4.8%		
Opportunistic Debt					7.5%	5.7%
Long Treasuries	25.0%	3.5%	25.0%	3.5%		
Core Bonds	10.0%	3.1%	10.0%	3.1%		
Commodities	5.0%	5.5%	5.0%	5.5%		
TIPS	25.0%	2.7%	25.0%	2.7%		
Private Real Assets	5.0%	7.1%	5.0%	7.1%		
Public Real Assets	5.0%	7.7%	5.0%	7.7%		
Alternative Beta	10.0%	5.3%	10.0%	5.3%		
Private Credit	5.0%	9.5%	5.0%	5.0%		
Cash and Cash Equivalents**	(40.0)%	—%	(40.0)%	—%		
	100.0%		100.0%		100.0%	

**Cash and cash equivalents policy allocation amounts are negative due to use of leverage.

Note 7 - Retirement Systems (cont.)

Discount Rate

A single discount rate based on the expected rate of return on pension investments of 6.95%, 6.95%, and 6.50% was used to measure the total pension liability for MSEP, Judicial Plan, and MPERS, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate for MPERS. The projection of cash flows used to determine the discount rate assumed that contributions will be made using actuarial determined rates from participating employers for MOSERS. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	5.95%	6.95%	7.95%
MSEP Net Pension Liability	$8,581,972	$6,912,497	$5,518,038
	5.95%	6.95%	7.95%
Judicial Plan Net Pension Liability	$543,691	$478,462	$422,446
	5.50%	6.50%	7.50%
MPERS Net Pension Liability	$1,895,834	$1,285,666	$781,745
	5.95%	6.95%	7.95%
MSEP-CU Net Pension Liability	$1,451,412	$1,169,065	$933,229

Payables to the Pension Plan

As of June 30, 2025, the State had payables of $28,745,000 to MOSERS for the outstanding amount of contributions to the pension plan, relating to a two week lag in payroll.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separate financial reports issued by MOSERS and MPERS:

Note 7 - Retirement Systems (cont.)

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees. As authorized by Section 172.300, RSMo, the University's Board of Curators administers the Retirement Plan and establishes its terms.

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Academic members who provide summer teaching and research service receive additional summer service credit. The Board of Curators may periodically approve increases to the benefits paid to existing pensioners. However, vested members who leave the University prior to eligibility for retirement are not eligible for these pension increases. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. Up to 30% of the retirement annuity can be taken in a lump sum payment. In addition, the standard annuity can be exchanged for an actuarially-equivalent annuity selected from an array of options with joint and survivor, period certain, and guaranteed annual increase features.

As of June 30, 2025, membership consisted of the following:

Active members	9,509
Inactive vested members	5,799
Pensioners and beneficiaries	12,293
Total Membership	27,601

The University closed the defined benefit plan to new entrants as of October 1, 2019. Employees starting on or after that date, are enrolled in a defined contribution plan. Vested defined benefit employees that are rehired on or after October 1, 2019, no longer receive creditable service credit within the defined benefit plan.

Contributions

The University's contributions to the Retirement Plan are equal to the actuarially determined contribution requirement (ADC). The ADC for those employees hired before October 1, 2012, averaged 19.1% of covered payroll for the year ending June 30, 2025. The ADC for those employees hired after September 30, 2012, averaged 15.6% of covered payroll for the year ended June 30, 2025. Employees are required to contribute 1% of their salary up to $50,000 in a calendar year and 2% of their salary in excess of $50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1, to reflect the actuarially determined funding requirement from the most recent valuation, as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year. The University contributed $163,466,000 during the fiscal year ended June 30, 2025.

Note 7 - Retirement Systems (cont.)

Employees hired after September 30, 2012, participate in a single employer, defined contribution plan. Each year the University contributes 2% of each employee's eligible salary to a 401(a) plan. Employees are able to contribute to a 457(b) and 403(b) plan. The University will match up to 3% of the employee's contribution to the 457(b) plan with the University's match funds going into the 401(a) plan. Employees in the defined contribution plans are immediately 100% vested in their contributions. Employees hired or rehired beginning October 1, 2019, will participate in a single employer, defined contribution plan. Employees will be automatically enrolled in the plan to contribute 8% of eligible salary into a 457(b) plan. Each year the University will match up to 8% of each employer's eligible salary to a 401(a) plan. The University's matching contributions vest following three years of consecutive or nonconsecutive service. The defined contribution plan recognized $63,812,000 of pension expense net of $10,419,000 of forfeitures for the year ended June 30, 2025.

Net Pension Liability

The Retirement Plan's net pension liability was measured as of June 30, 2025. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2024. Roll-forward procedures were used to measure the Retirement Plan's total pension liability as of June 30, 2025. For the year ended June 30, 2025, fiduciary net position as a percentage of the total pension liability amounted to 82.72%.

Changes in net pension liability (in thousands of dollars):

	Total Pension Liability (TPL) (a)	Fiduciary Net Pension (FNP) (b)	Net Pension Liability (NPL) (a) - (b)
Balances at June 30, 2024	$ 5,649,881	$ 4,534,681	$ 1,115,200
Changes for the year:			
Service Cost	52,604	—	52,604
Interest	387,661	—	387,661
Differences between expected and actual experience	37,114	—	37,114
Contributions – Employer	—	163,466	(163,466)
Contributions – Employee	—	13,776	(13,776)
Net Income Investment	—	413,663	(413,663)
Benefit payments, including refunds of employee contributions	(328,944)	(328,944)	—
Net Changes	148,435	261,961	(113,526)
Balances at June 30, 2025	$ 5,798,316	$ 4,796,642	$ 1,001,674

Note 7 - Retirement Systems (cont.)

Pension Expense

Annual pension expense consists of service cost and interest on the pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as a deferred outflow/inflow of resources and recognized in pension expense over a five year period.

For the year ended June 30, 2025, the Retirement Plan recognized pension expense of $154,994,000. At June 30, 2025, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 67,203	$ 147
Net difference between projected and actual earnings on pension plan investments	—	41,834
Total	$ 67,203	$ 41,981

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of these items:

Fiscal Year Ended June	Net Deferred Outflows/Inflows of Resources Recognition
2026	$ 105,760
2027	(8,224)
2028	(52,005)
2029	(20,309)
Totals	$ 25,222

Actuarial Assumptions

The October 1, 2024, actuarial valuation utilized the entry age actuarial cost method. The discount rate used to measure the total pension liability was 7.00%. Actuarial assumptions included:

Inflation	2.20 %
Salary Increases	3.32-3.86%
Investment Rate of Return	7.00 %

Note 7 - Retirement Systems (cont.)

For purposes of determining actuarially required contributions, the actuarial value of assets was determined using techniques that spread effects of short-term volatility in the market value of investments over a five-year period. Starting with the October 1, 2021, valuation the underfunded actuarial accrued liability is being amortized using a method that separately amortizes the initial unfunded liability as of October 1, 2021, over 20 years, the impact of the assumption changes over 20 years, and future experience gains and losses over 25 years and 15 years, respectively. The mortality rates were based on Pub-2010 Teacher Healthy Annuitant Mortality Table with generational projection using scale MP-2020 for academic and administrative members and Pub-2010 General Healthy Annuitant Mortality Table with generational projection using scale MP-2020 for clerical and service members.

The actuarial assumptions used in the October 1, 2024, valuation were based on the results of the most recent quinquennial study of the University's own experience covering 2016 to 2020.

The annual money-weighted rate of return is calculated as the internal rate of return on pension investments, net of pension plan investment expense. The money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan investments for the year ended June 30, 2025, was 9.3%. The following table provides long-term expected rates of real return:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public equity	34.0 %	4.4 %
Private equity	13.0 %	6.5 %
Sovereign bonds	20.0 %	2.3 %
Core Fixed Income	9.0 %	2.4 %
Private debt	8.0 %	6.9 %
Commodities	5.0 %	4.1 %
Real estate	11.0 %	6.3 %
	100.0 %	

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the University contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 7 - Retirement Systems (cont.)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	6.00%	7.00%	8.00%
MU Net Pension Liability	$1,720,627	$1,001,674	$405,459

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2025 financial report, which is publicly available. Copies of this report may be requested from:

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer, defined benefit other postemployment benefits plan, MOSERS is an insured, defined benefit insurance plan, and MHPML and CEIP are single-employer defined benefit public employees' other postemployment benefits plans.

Plan Descriptions

Missouri Consolidated Health Care Plan (MCHCP) operates a cost-sharing multiple-employer, defined benefit Other Postemployment Benefits Plan (OPEB), of the State Retiree Welfare Benefit Trust (SRWBT). Employees may participate at retirement, if eligible, to receive a monthly retirement benefit from either the Missouri Employees' Retirement System (MOSERS) or another retirement system whose members are grandfathered for coverage under the MCHCP by law. The terms and conditions governing postemployment benefits are vested with the MCHCP Board of Trustees within the authority granted under sections 103.003 - 103.178, RSMo. MCHCP provides medical, dental, and vision benefits, and the Strive Employee Life & Family program for the exclusive benefit of current and future retired employees of the state and their dependents who meet eligibility requirements, except those retired members covered by other OPEB plans of the state. Covered categories include active employees, participants and spouses in payment status, participants with a deferred benefit, and disabled participants.

Note 8 - Other Postemployment Benefits (cont.)

The Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML) is a single-employer, defined benefit OPEB plan administered in accordance with Section 104.270, RSMo. MHPML is not a separate legal entity and is self insured. The plan does not maintain assets in a trust and pays expenses on a pay-as-you-go basis. The plan assets are neither legally protected from creditors nor are they dedicated to providing OPEB benefits. The State has no legal obligation to pay the benefits. MHPML provides healthcare insurance benefits to employees who retired from the Department who participated in the Medical and Life Insurance Plan when they were an active employee and had a minimum of five years creditable service. Coverage categories include retirees, certain disabled employees, spouses, certain dependents and survivors of deceased employees and retirees. At July 1, 2023, the number of participants covered by the plan included 6,245 retirees or beneficiaries currently receiving benefits, 37 retirees entitled to but not yet receiving benefits, and 6,669 active employees.

The Conservation Employees' Benefits Plan (CEIP) is a single-employer defined benefit OPEB plan administered by the Conservation Employees' Benefits Plan Board of Trustees in accordance with Article IV, Section 42 of the Missouri Constitution. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The benefit plan for the Department of Conservation is not irrevocable.

CEIP provides for the continuation of medical insurance benefits for retirees and their dependents. Coverage categories include active employees, retirees and surviving spouses, and spouses of current retirees. At June 30, 2023, 1,395 active employees, 924 retirees and surviving spouses, and 375 spouses of current employees were participating in the plan.

Contributions

Contributions are established and may be amended by the MCHCP Board of Trustees with the authority granted under sections 103.003 - 103.178, RSMo. Contributions to MCHCP by the State are not legally or contractually required. For the fiscal year end June 30, 2024, employers contributed on average 3.59% of active employee covered payroll. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Contributions to the OPEB plan for MCHCP and MCHCP-CU was $73,684,000 and $28,000, respectively for the year ended June 30, 2025.

The contribution requirements for MHPML are recommended by the Medical and Life Insurance Plan's Board of Trustees and are approved by the Missouri Highways and Transportation Commission. The Commission contributes a percentage of medical premiums for retirees. For those who retired on or prior to January 1, 2015, an amount ranging from 40.0% to 57.0% of the premium is contributed, dependent on the level of coverage. Medical premiums, for employees who retire on or after January 1, 2015, are based on total years of service, with the Commission contributing 2.0% per year of service, not to exceed 50.0% of the total premium, with the retiree responsible for the remaining balance of the premiums. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between employer and the plan members to that point. Contributions to the Plan for the year ended June 30, 2025, was $25,354,000.

Note 8 - Other Postemployment Benefits (cont.)

The contribution requirements for CEIP are established by a trust agreement between the Conservation Commission and the Conservation Employees' Benefits Plan Board of Trustees, which grants the authority to establish and amend benefit terms and financing requirements to the Board of Trustees. The Commission contribution toward retiree medical premium is based on tenure or years of service with the State. At the time of retirement, employees who have 25+ years of service receive a 65% contribution, 20-24 years of service receive a 60% contribution, 15-19 years of service receive a 55% contribution, vested status up to 14 years of service receive a 50% contribution, and employees who retired prior to January 1, 2013, continue to receive a 65% contribution towards their premium. Benefit projections for financial reporting purposes are based on an established policy of the retiree's paying the premium amount less any direct subsidy paid by the Commission based on years of service and date of retirement. Contributions to the Plan for the fiscal year ended June 30, 2025, was $4,710,000.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2025, a liability was reported for the State's proportionate share of the collective net OPEB liability for the MCHCP and the MCHCP-CU plans based on an actuarial valuation as of June 30, 2024. The State's proportionate share of the collective net OPEB liability was calculated by dividing the State's contribution to the SRWBT by the total contributions from all applicable employers during the measurement period. From the previous valuation, the discount rate remained the same at 5.50%.

The State reported the following proportionate share of the collective net OPEB liability and the OPEB expense for the fiscal year ended June 30, 2025, was as follows (in thousands of dollars):

	MCHCP	MCHCP-CU
OPEB Expense	$ 58,862	$ (5)
Proportionate share:	99.48 %	0.04 %
Net OPEB Liability	$1,571,917	$ 607

Single-Employer Plans:

The State's total OPEB liability and related information for the MHPML and CEIP plans for the fiscal year ended June 30, 2025, were as follows (in thousands of dollars):

	MHPML	CEIP
	Total OPEB Liability	Total OPEB Liability
Balances at June 30, 2024	$ 576,664	$ 145,128
Changes for the year:		
Service Cost	13,061	2,758
Interest	21,066	5,720
Differences between expected and actual experience	1,171	—
Changes of assumptions or other inputs	(19,353)	(25,683)
Benefit payments	(25,354)	(4,710)
Net Changes	(9,409)	(21,915)
Balances at June 30, 2025	$ 567,255	$ 123,213

For the year ended June 30, 2025, the MHPML and CEIP recognized OPEB expense of $(107,174,000) and $(9,093,000), respectively.

Note 8 - Other Postemployment Benefits (cont.)

At June 30, 2025, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources				Deferred Inflows of Resources			
	MCHCP	MHPML	CEIP	MCHCP -CU	MCHCP	MHPML	CEIP	MCHCP -CU
Difference between expected and actual experience	$ 54,033	$ 1,031	$ —	$ 21	$ (7,329)	$ (25,945)	$ (22,306)	$ (3)
Changes of assumptions	86,733	45,497	1,232	33	(356,545)	(537,693)	(34,320)	(137)
Net difference between projected and actual earnings on plan investments	2,107	—	—	1	—	—	—	—
Changes in proportion and differences between employer contributions and proportionate share of contributions	1,032	—	—	121	(2,216)	—	—	(227)
Contributions subsequent to the measurement date	74,072	27,836	—	27	—	—	—	—
Total	$217,977	$ 74,364	$ 1,232	$ 203	$(366,090)	$(563,638)	$ (56,626)	$ (367)

Amount reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the measurement period of the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands of dollars):

	Net Deferred Outflows/Inflows of Resources			
Fiscal Year Ended June 30	MCHCP	MHPML	CEIP	MCHCP-CU
2026	$ (52,773)	$ (123,708)	$ (16,999)	$ (48)
2027	(50,333)	(156,434)	(14,136)	(45)
2028	(49,570)	(147,543)	(10,727)	(42)
2029	(43,913)	(88,692)	(9,860)	(31)
2030	(25,609)	(733)	(3,672)	(23)
Thereafter	13	—	—	(2)
Totals	$ (222,185)	$ (517,110)	$ (55,394)	$ (191)

Note 8 - Other Postemployment Benefits (cont.)

Actuarial Assumptions

The total OPEB liability at June 30, 2025, is based upon the July 1, 2024, actuarial valuation date for MCHCP and MHPML, and the June 30, 2023 actuarial valuation date for CEIP, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

	MCHCP and MCHCP-CU
Price Inflation	3.00%
Salary Increases	4.00%
Investment Rate of Return	5.50%
Healthcare Cost Trend Rate	Non-Medicare, Medical and Prescription Drug is 6.34% for fiscal year 2025, 6.78% for fiscal year 2026, 6.56% for fiscal year 2027, 6.34% for fiscal year 2028, 6.12% for fiscal year 2029, 5.90% for fiscal year 2030, 5.77% for fiscal year 2031, 5.72% for fiscal year 2032, 5.62% for fiscal year 2033, 5.46% for fiscal year 2034, 5.30% for fiscal year 2035, 5.13% for fiscal year 2036, 4.95% for fiscal year 2037, 4.77% for fiscal year 2038, 4.59% for fiscal year 2039, and 4.50% for fiscal year 2040 and after. Medicare, Medical and Prescription Drug is 7.75% for fiscal year 2025, 9.39% for fiscal year 2026, 12.87% for fiscal year 2027, 12.73% for fiscal year 2028, 9.56% for fiscal year 2029, 9.14% for fiscal year 2030, 8.34% for fiscal year 2031, 7.67% for fiscal year 2032, 7.35% for fiscal year 2033, 6.92% for fiscal year 2034, 6.49% for fiscal year 2035, 6.05% for fiscal year 2036, 5.61% for fiscal year 2037, 5.16% for fiscal year 2038, 4.72% for fiscal year 2039, and 4.50% for fiscal year 2040 and after. Administrative Expenses: 0.00%, 3.00% (ultimate)

	MHPML
Price Inflation	2.00%
Salary Increases	3.00%
Investment Rate of Return	3.93%
Healthcare Cost Trend Rate	7.50% for 2024 decreasing to 4.50% for 2033 and later years

	CEIP
Price Inflation	2.30%
Salary Increases	4.00%
Investment Rate of Return	5.20%
Healthcare Cost Trend Rate	Pre-65 rate of 6.90% for 2023, gradually decreasing to an ultimate rate of 3.70% for 2073 and beyond. Post-65 trend rate of 7.30% for 2023, gradually decreasing to an ultimate rate of 3.70% for 2073 and beyond.

Note 8 - Other Postemployment Benefits (cont.)

MCHCP's actuarial assumptions used in the June 30, 2024, valuation for SRWBT involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation to determine MCHCP's total OPEB liability is required to be performed at least every two years, but is performed annually. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations. The collective total OPEB liability for June 30, 2024, measurement date was determined by an actuarial valuation as of July 1, 2024. The cost method utilized for the valuation year June 30, 2024, was the entry age normal, level percentage of payroll. Mortality rates for Pre-Retirement were based on Pri-2012 Employee Amount-weighted Mortality Table projected generationally using MP-2021. Mortality rates for Annuitant were based on Pri-2012 Retiree Amount-weighted Mortality Table projected generationally using MP-2021. The last experience study was conducted in 2020. From the previous valuation, the discount rate has remained the same at 5.50%.

MHPML's actuarial assumptions used in the June 30, 2024, valuation were determined using a measurement date of July 1, 2024. The inflation rate was based on the actuary's estimate of inflation as of July 1, 2024. The salary increases were based on projected salaries, which include COLA's. The discount rate was based on Bond Buyer General Obligation 20-Bond Municipal Bond Index. Mortality rates were based on Pub-2010 Public Retirement Plans Safety Employees Mortality Table weighted by Headcount project by MP-2021 for July 1, 2024. The actuarial assumptions used in the July 1, 2024, valuation were based on the results of an actuarial experience study for the period July 1, 2017, through June 30, 2022. From the previous valuation, the discount rate changed from 3.65% to 3.93%.

CEIP's actuarial assumptions used in the June 30, 2023, valuation were determined using a measurement date of June 30, 2025. The discount rate was based on the 20-year Bond General Obligation Index. Mortality rates were based on Pub-2010 Mortality for General Employees, Healthy Annuitants and Contingent Survivors, with generational projection per Scale MP-2021. The plan has not had a formal actuarial experience study performed. From the previous valuation, the discount rate changed from 3.93% to 5.20%.

For MCHCP, the long-term expected rate of return on OPEB plan investments was determined using a building block method in which best estimate ranges of expected future rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic nominal rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

	MCHCP and MCHCP-CU	
Asset Class	Target Allocation	Expected Real Return
Domestic Large Cap Equity	20.0%	7.5%
Domestic Mid Cap Equity	5.0%	8.4%
Domestic Small Cap Equity	5.0%	9.3%
Global Equity	6.0%	7.9%
Domestic Fixed Income	64.0%	4.4%
	100.0%	

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

A single discount rate based on the expected rate of return on OPEB investments of 5.50%, 3.93%, and 5.20% was used to measure the total OPEB liability for MCHCP, MHPML, and CEIP, respectively. For MCHCP, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investment was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for MCHCP and total OPEB liability for MHPML and CEIP, to changes in the single discount rate, the following presents the State's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MCHCP Net OPEB Liability	4.50% $1,853,983	5.50% $1,571,917	6.50% $1,344,854
MHPML Total OPEB Liability	2.93% $641,743	3.93% $567,255	4.93% $506,161
CEIP Total OPEB Liability	4.20% $142,795	5.20% $123,213	6.20% $107,506
MCHCP-CU Net OPEB Liability	4.50% $716	5.50% $607	6.50% $519

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for MCHCP and the total OPEB liability for MHPML and CEIP, to changes in healthcare cost trend rates, the following presents the plan's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
MCHCP Net OPEB Liability	$1,334,230	$1,571,917	$1,870,240
MHPML Total OPEB Liability	$492,435	$567,255	$660,368
CEIP Total OPEB Liability	$105,012	$123,213	$146,217
MCHCP-CU Net OPEB Liability	$515	$607	$722

Note 8 - Other Postemployment Benefits (cont.)

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the financial reports issued by MCHCP:

Missouri Consolidated Health Care Plan
P.O. Box 104355
Jefferson City, Missouri 65110-4355
www.mchcp.org

Missouri State Insured Defined Benefit Insurance Plan

The Missouri State Insured Defined Benefit Insurance Plan is administered through The Standard, which is a third party administrator with oversight by Missouri State Employees Retirement System (MOSERS). In the event that the Standard becomes insolvent, the Missouri Guarantee Association will work with the Standard to see what assets are available to handle their liabilities and the MO Guarantee Association would handle the open and unpaid claims up to the maximum outlined in Section 376.717, RSMo.

Retiree Life Insurance

Members who retire on or after October 1, 1985, or retirees of the Department of Labor and Industrial Relations (DOLIR) who retire on or after January 1, 1996, are eligible for $5,000 of state-sponsored basic life insurance coverage if they retire directly from active employment. This group plan is financed on a percentage of payroll and is purchased as a group policy through competitive bids. Premiums are contributed as provided by Section 104.515, RSMo. Retirees of the DOLIR who retire prior to January 1, 1996, are eligible for state-sponsored insured defined benefit coverage in the same amount of coverage they were receiving through the DOLIR. The coverage for this closed group is purchased as a group policy at a current cost of $2.07 per thousand dollars of coverage, per month as provided by Section 288.225, RSMo. The cost for fiscal year 2025 was $2,601,000.

Long-Term Disability Insurance (LTD)

MOSERS provides LTD coverage for eligible members and generally includes those active members of MOSERS' retirement plans who do not have other disability coverage and are not yet eligible to receive normal (unreduced) retirement benefits. There were 36,623 members covered under the program as of June 30, 2025. This insured defined-benefit coverage is billed on percentage of covered payroll (0.04%). Purchased as group policy through competitive bids, LTD is administered by The Standard Insurance Company. The cost for the year ended June 30, 2025, was $9,221,000. Premiums are contributed by the State and its component employers as provided for by Section 104.515, RSMo.

Note 8 - Other Postemployment Benefits (cont.)

University of Missouri System

Plan Description

In addition to the retirement benefits described in *Note 7,* the University of Missouri operates a single-employer, defined benefit Other Postemployment Benefits (OPEB) Plan. The assets of the OPEB Trust Fund are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with the plan. The OPEB plan provides postemployment medical, dental, and life insurance benefits to employees who retire from the University after attaining age 55 and before reaching age 60 with ten or more years of service, or after attaining age 60 with five or more years of service. As of January 1, 2018, employees must be 60 years old and have 20 years of service at the date of retirement to access the same percentage subsidy as retirees prior to January 1, 2018. Employees with age plus years of service less than 80, but with more than 5 years of service as of January 1, 2018, will receive a subsidy of $100 per year of service up to a maximum of $2,500 annually. Employees with less than 5 years of service as of January 1, 2018, will not receive an insurance subsidy or be eligible to participate in the University's plans.

As of June 30, 2025, 8,156 retirees were receiving benefits, and an estimated 5,634 active University employees may become eligible to receive benefits under the plan. Postemployment medical, dental and life insurance benefits are also provided to long-term disability claimants who were vested in the University's Retirement Plan at the date the disability began, provided the onset date of the disability was on or after September 1, 1990. As of June 30, 2025, 82 long-term disability claimants met those eligibility requirements. The terms and conditions governing the postemployment benefits to which employees are entitled are at the sole authority and discretion of the University's Board of Curators. The OPEB plan does not issue a separate financial report.

Contributions

Postemployment benefits are funded through both employer and employee contributions. Contribution requirements of employees and the University are established and may be amended by the University's Board of Curators. For employees retiring prior to September 1, 1990, the University contributes 2/3 of the medical benefits premium and 1/2 of the dental plan premium. For employees who retire on or after September 1, 1990, the University contributes towards premiums based on the employee's length of service and age at retirement.

The University makes available two group term life insurance options. Option A coverage is equal to the retiree's salary at the date of retirement, while Option B is equal to two times the amount. For each option, graded decreases in coverage are made when the retiree attains specific age levels. The University pays the full cost of Option A and approximately 91% of Option B coverage. Coverage for group term life insurance ends on January 1 following the retiree's 70th birthday.

For the year ended June 30, 2025, participant contributions were $20,610,000, or approximately 52.8%, of the total premiums through their required contributions, which vary depending on the plan and coverage selection. In fiscal year 2024, the contribution rate as a percentage of covered payroll was 3.6% and the University contributed $18,407,000.

The University also makes available two long-term disability options to its employees. Option A coverage is equal to 60% of the employee's salary on the date the disability began, when integrated with benefits from all other sources. Option B coverage is equal to 66-2/3% of the employee's salary, integrated so that benefits from all sources will not exceed 85% of the employee's salary. Both options have a 149-day waiting period and provide benefits until age 65. The University pays the full cost of the Option A premium, while employees enrolled in Option B pay the additional cost over the Optional A premium.

Note 8 - Other Postemployment Benefits (cont.)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2025, the net OPEB liability for the University was based on an actuarial valuation as of June 30, 2025, and measured as of that date. For the year ended June 30, 2025, fiduciary net position as a percentage of the net OPEB liability amounted to 38.71%.

Changes in net OPEB liability (in thousands of dollars):

	Total OPEB Liability (TOL)	Fiduciary Net Position (FNP)	Net OPEB Liability (NOL)
Balances at July 1, 2024	$ 181,108	$ 46,271	$ 134,837
Changes for the year:			
Service Cost	1,736	—	1,736
Interest	6,836	—	6,836
Changes of Benefit Terms	(3,304)	—	(3,304)
Differences between expected and actual experience	9,192	—	9,192
Changes in assumptions	(51,629)	—	(51,629)
Contributions – Employer	—	18,407	(18,407)
Contributions – Employee	—	20,610	(20,610)
Net Investment Income	—	2,041	(2,041)
Benefit payments, including refunds of employee contributions	(17,956)	(38,565)	20,609
Net Changes	(55,125)	2,493	(57,618)
Balances at June 30, 2025	$ 125,983	$ 48,764	$ 77,219

For the year ended June 30, 2025, the University recognized OPEB expense of $(46,799,000). At June 30, 2025, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ —	$ 1,209
Changes in assumptions	11,660	50,398
Net difference between projected and actual earnings on OPEB plan investments	8,626	4,916
Total	$ 20,286	$ 56,523

Note 8 - Other Postemployment Benefits (cont.)

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of those items (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources Recognition
2026	$ (17,167)
2027	(10,135)
2028	(8,527)
2029	(408)
Totals	$ (36,237)

Actuarial Assumptions

The total OPEB liability at June 30, 2025, is based upon the June 30, 2025, actuarial valuation, using the entry age normal, as a level percentage of pay, actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

Price Inflation	3.87 %
Salary Increases	Varies based on age: 0.3% to 6.0% (including inflation) for academic and administrative; 0.2% to 3.1% (including inflation) for clerical and service.
Investment Rate of Return	5.20 %
Pre-65 Medical and HSP Plans Trend Rate	5.59, 6.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached for Medical and 4.45%, 5.20%, then 5.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached for HSP Plan.
Pre-65 Rx trend rate	(0.43)%, (1.37)%, then 7.50% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Post-65 Medicare Base and Rx Trend Rate	0.00%, 3.00%, then 5.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Post-65 Medicare Buyup and Rx trend rate	40.92%, 17.87%, then 5.75% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Dental trend rates	2.00 %

The University's actuarial assumptions used in the June 30, 2025, valuation involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. For healthy retiree mortality rates, the Pub-2010 Teacher Employee and Healthy Annuitant Headcount-Weighted Mortality Tables, weighted 95% for males and 103% for females, with generational projection using Scale MP-2020 was used for academic and administrative members. The Pub-2010 General Employee and Healthy Annuitant Headcount-Weighted Mortality Tables, weighted 124% for males and 112% for females, with generational projection using Scale MP-2020 was used for clerical and service members. For disabled retiree mortality rates, the Pub-2010 Non-Safety Disabled Annuitant Headcount-Weighted Mortality Table, weighted 95% for males and females, with generational projection using Scale MP-2020 was used.

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

The discount rate used to measure the total OPEB liability was 5.20% for the year ended June 30, 2025. The projection of cash flows used to determine the discount rate assumed that the University would not make additional contributions to the OPEB Trust and would continue to fund the plan on a pay-as-you-go basis. Based on those assumptions, the OPEB Plan's fiduciary net position was not projected to cover a full year of projected future benefit payments. Therefore, all future benefit payments are discounted at the current index rate for 20 year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for the University, to changes in the single discount rate, the following presents the University's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	4.20%	5.20%	6.20%
Net OPEB Liability	$93,412	$77,219	$63,809

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for the University, to changes in healthcare cost trend rates, the following presents the University's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
Net OPEB Liability	$64,745	$77,219	$88,908

Detailed information concerning the Plan is presented in the University's 2025 financial report, which is publicly available. Copies of this report may be requested from:

Note 9 - Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Copies of the Plan's financial statements may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
907 Wildwood Drive
Jefferson City, Missouri 65102-0209

Missouri State Public Employees' Deferred Compensation Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, employees of the State are eligible to contribute into the Plan through reduction of salary. Effective July 1, 2012, newly eligible employees are automatically enrolled at 1% of gross wages unless they elect not to participate. Participants can elect to enroll in an automatic contribution increase feature. The State, subject to appropriation, contributes $25 or up to a maximum of $75 per month for each employee that meets these requirements based on employee contribution.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employers as well as rollovers from other qualified plans. During fiscal year 2025, net rollovers and contributions to ICMA-RC were $31,455,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
907 Wildwood Drive
Jefferson City, Missouri 65102-0209

Note 10 - Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2025 (in thousands of dollars):

	*Balance July 1, 2024	Increases	Decreases	Balance June 30, 2025	Due Within One Year
Governmental Activities:					
Due to Other Entities	$ 41,418	$ 13,276	$ (9,292)	$ 45,402	$ 8,757
Other Bonds Payable	1,966,300	—	(446,275)	1,520,025	446,105
Unamortized Bond Premium/ Discount	84,348	—	(28,558)	55,790	—
Obligations under Financed Purchase	31,471	26,451	(26,354)	31,568	8,161
Obligations Under Right-to-Use Assets - Leases	51,765	3,217	(8,775)	46,207	6,818
Obligations Under Right-to-Use Assets - Subscriptions	51,902	6,392	(40,523)	17,771	10,542
Pollution Remediation	58,661	8,644	(1,860)	65,445	4,409

Net Pension Liability	44,603	20,733	(17,761)	47,575	—
Total Business-Type Activities	$ 302,394	$ 117,270	$ (110,825)	$ 308,839	$ 101,863

*Beginning balances as of July 1, 2024, have been restated (see *Note 17*).

Note 11 - Debt

Bonds:

All of the State's Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements, with the exception of Board of Public Buildings, Series A 2021. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement. Board of Public Buildings, Series A 2021, is paid with enterprise funds and is reported as a long-term obligation in the Proprietary Funds *Statement of Net Position*.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. There are no general obligation bonds that are currently outstanding.

As of June 30, 2025, $594,494,240 of the Water Pollution Control Bonds and $45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is $130,505,760 and for the Stormwater Control Bonds is $155,000,000.

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals $1,545,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the outstanding refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Board of Public Buildings:				
Series A 2011-Refunding	09/27/11	$ 143,020	A 2001	$ 126,850
			A 2003	12,620
			A 2006	3,175
Series A 2014-Refunding	08/19/14	88,680	A 2006	87,225
Series A 2015-Refunding	04/01/15	20,250	A 2011-Refunding	21,380
Series A 2020-Refunding	03/26/20	38,920	A 2011-Refunding	40,350
Series B 2020-Refunding	08/25/20	172,850	A 2012-Refunding	185,850
			A 2013-Refunding	19,635

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2025, the Board of Public Buildings Bonds had issued $1,253,800,000 of the bond authorization. The remaining authorization is $291,200,000.

Note 11 - Debt (cont.)

The Board of Public Buildings Bonds issued and outstanding as of June 30, 2025, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Board of Public Buildings:						
Series A 2011-Refunding	1.0 - 5.0%	4/1; 10/1	9/11	10/1/28	$ 143,020	$ 25,080
Series A 2014-Refunding	1.0 - 5.0%	4/1; 10/1	8/14	10/1/30	88,680	41,070
Series A 2015	3.0 - 5.0%	4/1; 10/1	4/15	10/1/36	36,805	19,360
Series B 2015	3.0 - 5.0%	4/1; 10/1	9/15	4/1/30	60,000	20,855
Series A 2016	3.0 - 4.0%	4/1; 10/1	5/16	4/1/36	100,000	40,540
Series A 2017	2.0 - 5.0%	4/1; 10/1	9/17	4/1/32	77,165	40,920
Series A 2018	3.0 - 5.0%	4/1; 10/1	5/18	4/1/37	47,740	26,305
Series A 2020-Refunding	3.0 - 3.25%	4/1; 10/1	3/20	10/1/25	38,920	10,750
Series B 2020-Refunding	4.0 - 5.0%	4/1; 10/1	8/20	10/1/28	172,850	95,170
Series A 2021	0.3 - 2.75%	4/1; 10/1	10/21	4/1/41	60,885	49,710
Total Board of Public Buildings Bonds					$ 826,065	$ 369,760

As of June 30, 2025, the debt service requirements for principal and interest in future years for the Board of Public Buildings Bonds in governmental funds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2026	$ 61,555	$ 10,472	$ 72,027
2027	59,265	8,029	67,294
2028	58,810	5,841	64,651
2029	56,545	3,710	60,255
2030	25,600	2,433	28,033
2031-2035	48,500	4,923	53,423
2036-2037	9,775	374	10,149
Totals	$ 320,050	$ 35,782	$ 355,832

As of June 30, 2025, the debt service requirements for principal and interest in future years for the Board of Public Buildings Bonds in enterprise funds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2026	$ 2,670	$ 1,136	$ 3,806
2027	2,705	1,100	3,805
2028	2,745	1,057	3,802
2029	2,795	1,009	3,804
2030	2,845	957	3,802
2031-2035	15,135	3,880	19,015
2036-2040	17,110	1,912	19,022
2041	3,705	100	3,805
Totals	$ 49,710	$ 11,151	$ 60,861

Note 11 - Debt (cont.)

The Missouri Development Finance Board (MDFB) issued $92,660,000 of Series 2014 Bonds dated December 10, 2014, and $97,225,000 of Series 2016 Bonds dated December 15, 2016, to fund the replacement of the Fulton State Hospital. These bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The MDFB – Fulton State Hospital Project Bonds issued and outstanding as of June 30, 2025, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Fulton State Hospital Project Bonds:						
Series 2014	2.125 - 5.0%	4/1; 10/1	12/14	10/1/32	$ 92,660	$ 30,380
Series 2016	4.0 - 5.0%	4/1; 10/1	12/16	10/1/31	97,225	20,460
Total Fulton State Hospital Bonds					$ 189,885	$ 50,840

As of June 30, 2025, the debt service requirements for principal and interest in future years for the Fulton State Hospital Project Bonds (based on the financing agreement between the State and the Board) were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2026	$ 6,965	$ 1,737	$ 8,702
2027	7,245	1,451	8,696
2028	7,540	1,153	8,693
2029	3,725	945	4,670
2030	3,840	829	4,669
2031-2033	21,525	981	22,506
Totals	$ 50,840	$ 7,096	$ 57,936

The MDFB issued $33,800,000 of Series A 2016 Bonds dated March 11, 2016, to fund the State Historical Society project. These bonds are special, limited obligations of the Board and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

The MDFB – State Historical Society Project Bonds issued and outstanding as of June 30, 2025, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
State Historical Society Project Bonds:						
Series A 2016	2.0 - 5.0%	4/1; 10/1	3/16	10/1/35	$ 33,800	$ 21,180

Note 11 - Debt (cont.)

As of June 30, 2025, the debt service requirement of the State for principal and interest in future years for the State Historical Society Project were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2026	$ 1,665	$ 627	$ 2,292
2027	1,710	577	2,287
2028	1,760	524	2,284
2029	1,810	471	2,281
2030	1,865	409	2,274
2031-2035	10,165	1,124	11,289
2036	2,205	34	2,239
Totals	$ 21,180	$ 3,766	$ 24,946

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29-34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2025, the Missouri Highways and Transportation Commission had issued $4,914,135,000. In addition, Senate Concurrent Resolution 14 authorized $301,000,000 in Missouri Highways and Transportation Commission bonds to renovate bridges and other important transportation infrastructure. The Third Lien State Road Bonds, Series B 2019 and the Third Lien State Road Bonds, Series A 2021 are payable from the General Revenue Fund.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the outstanding refunding bonds issued by the Commission (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Senior Lien State Road Bonds:				
Series A 2014-Refunding	6/3/14	$ 589,015	A 2006	$ 149,150
			B 2006	503,330
Series B 2014-Refunding	6/3/14	311,975	2007	325,290
Series A 2019-Refunding	5/13/19	102,705	A 2008	68,605
			A 2009	42,695

Note 11 - Debt (cont.)

The State Road Bonds issued and outstanding as of June 30, 2025, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Missouri Highways and Transportation Commission:						
State Road Bonds:						
Series B 2009	4.802 - 5.252%	5/1; 11/1	9/09	5/1/33	$ 404,375	$ 307,225

[1] The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements. Harris-Stowe's financial information is based on their June 30, 2024, Annual Comprehensive Financial Report

Non-Major

Missouri Development Finance Board:

In December 2000, the Board issued $6,500,000 in St. Louis Convention Center Hotel Series 2000B, taxable infrastructure facilities revenue bonds and $14,600,000 in St. Louis Convention Center Hotel Series 2000C, tax-exempt infrastructure facilities revenue bonds, respectively for the purpose of paying the costs of acquiring land and constructing a parking garage. These bonds were remarketed in June 2020 as $4,590,000 2020B and $4,730,000 2020C bonds, replacing 2000B and 2000C, respectively. Bonds are payable, both principal and interest, out of revenues derived from the operation of the parking garage.

Note 11 - Debt (cont.)

The Missouri Development Finance Board Revenue Bonds issued and outstanding as of June 30, 2025, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Missouri Development Finance Board:						
Revenue Bonds Series 2020B/C	Variable	monthly	6/20	12/1/49	$ 9,320	$ 7,770
Total Missouri Development Finance Board Revenue Bonds					$ 9,320	$ 7,770

As of June 30, 2025, the debt service requirements for principal and interest in future years for the Missouri Development Finance Board Revenue Bonds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2026	$ 310	$ 311	$ 621

Note 11 - Debt (cont.)

Financed Purchases from Direct Borrowings:

The State has entered into various agreements for financed purchases from direct borrowings for personal property, for example, equipment and software. Through contracts with Central Bank, the State has a $18.4 million obligation outstanding as of June 30, 2025, for governmental activities. These financed purchases are secured with collateral of capital assets in the amount of $30.4 million. In the event of default, the lease shall be terminated and the resulting property returned to the lessor. If the termination is the result of non-appropriation, the State shall deliver the property to the lessor within 10 business days after the termination of the lease schedule. If the property is not delivered within 10 business days, then the State shall also be responsible for the payment of damages in an amount equal to the amount of the lease payments that would have thereafter come due on the lease schedule had it not been terminated. The State had an unused line of credit in the amount of $51.8 million at the end of fiscal year 2025.

Through a contract with IBM, the State had financed purchases from direct borrowings during fiscal year 2025. During fiscal year 2025, the State paid off the obligation and had zero dollars outstanding at June 30, 2025. These financed purchases were secured during the fiscal year with capital assets in the amount of $2.5 million. The State had no available line of credit at the end of fiscal year 2025.

The State has entered into an agreement for financed purchases from direct borrowings for Leasehold Revenue Bonds through a contract with Missouri Development Finance Board. The State's obligation under the purchase does not constitute a general obligation or other indebtedness of the State. Ownership transfers to the State at the end of the term. The State has a $13.2 million obligation outstanding as of June 30, 2025. The payments under the agreement have been structured in the amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued $28,995,000 of the Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued $9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued $21,820,000 of Leasehold Refunding Bond Series A 2013 and $7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding $20,805,000 of Leasehold Revenue Bonds Series 2005 and $7,100,000 of Leasehold Revenue Bonds Series 2006, respectively. In December 2024, the Board issued $16,386,000 of Leasehold Revenue Bonds Series 2024 for the purpose of purchasing one building in St. Louis. The bonds were subject to optional redemption at the discretion of the State, in accordance with the terms of the bond indenture, the bonds were redeemed and paid in their entirety in March 2025. The payments are subject to annual appropriation by the State legislature. The State had no available line of credit at the end of fiscal year 2025.

As of June 30, 2025, debt service requirements for principal and interest in future years for direct borrowings were as follows (in thousands of dollars):

	Financed Purchases from Direct Borrowings					
	Governmental Funds		Internal Service Funds		College and Universities*	
Fiscal Year Ended June 30	Principal	Interest	Principal	Interest	Principal	Interest
2026	$ 2,584	$ 327	$ 5,577	$ 904	$ 9,836	$ 939

Note 12 - Defeased Debt

A. Current Year Debt Defeasance

During fiscal year 2025, the University of Missouri issued $362,640,000 in Series 2024 System Facilities Revenue Bonds. Proceeds from the issuance of the bonds were intended for the purpose of advance refunding Series 2007B and 2014A System Facilities Revenue Bonds. At June 30, 2025, the aggregated balance of outstanding in-substance defeased bonds totaled $4,865,000. The refunding resulted in a $5,125,000 amount of economic gain.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by the advance refunding of bonds. Irrevocable escrow accounts, containing proceeds of the refunding bond issues in the form of cash and U.S. government securities, are used to pay principal, interest, or redemption prices of the defeased bonds as and when due.

For financial reporting purposes, the following debt has been defeased via an advance refunding and, therefore, removed as a liability from the college and universities Statement of Net Position.

College and Universities - As of June 30, 2025, bonds outstanding of $4,865,000 are defeased.

Note 13 - Payables and Receivables

A summary of accounts payable and accounts receivable at June 30, 2025, is shown below (in thousands of dollars):

	Governmental Activities	Business-Type Activities	Balance June 30, 2025
Accounts Payable:			
Taxpayers	$ 404,503	$ 256	$ 404,759
Other Governments	127,166	25	127,191
Vendors	2,204,429	58,357	2,262,786
Employees	170,019	767	170,786
Other	154,995	371	155,366
Total Accounts Payable	$ 3,061,112	$ 59,776	$ 3,120,888
Accounts Receivable with expected date of receipt within one year:			
Taxpayers	$ 1,910,478	$ 2,415	$ 1,912,893
Other Governments	1,640,650	38	1,640,688
Vendors	251,616	—	251,616
Customers	200,847	157,296	358,143
Interest Receivable	109,391	799	110,190
Loans Receivable	2,409,981	—	2,409,981
Other	140,050	—	140,050
Lease Receivables with expected date of receipt within one year:			
Land	550	25	575
Building	30	—	30
	6,663,593	160,573	6,824,166
Accounts Receivable with expected date of receipt greater than one year:			
Taxpayers	2,148,295	—	2,148,295
Other Governments	14	—	14
Vendors	28,047	—	28,047
Customers	174,681	—	174,681
Other	470,543	—	470,543
Lease Receivables with expected date of receipt greater than one year:			
Land	1,088	594	1,682
Building	204	—	204
	2,822,872	594	2,823,466
Total Receivables	9,486,465	161,167	9,647,632
Amounts not expected to be collected	(756,928)	—	(756,928)
Receivables, net	$ 8,729,537	$ 161,167	$ 8,890,704

Governmental activities lease receivables are held primarily by Missouri Road fund and business-type activities lease receivables are held by State Parks.

For the fiscal year ended June 30, 2025, the statement of activities includes lease revenues and interest of $853,000 and $56,000, respectively for governmental activities and $24,000 and $21,000 for business-type activities. There was no additional revenue for variable and other payments not included in the measurement of the lease receivable.

Note 14 - Deferred Inflows and Outflows

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

The components of deferred outflows of resources and deferred inflows of resources reported in the government-wide financial statements as of June 30, 2025, are as follows (in thousands):

	Primary Government			
	Governmental Activities	Business-Type Activities	Total	Component Units
Deferred Outflows of Resources				
Pension Differences Between Expected and Actual Experience	$ 599,715	$ 2,410	$ 602,125	$ 123,904
Net Differences Between Projected and Actual Earnings on Pension Plan Investments	475,249	3,346	478,595	79,362
Changes in Proportion and Differences Between Pension Plan Contributions and Proportionate Share of Contributions	35,831	259	36,090	1,389

During the consolidation process for the Government-Wide Statement of Net Position, interfund payables and receivables were eliminated for governmental activities in the amount of $10,240,000.

Note 16 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2025, were as follows (in thousands of dollars):

	Transfers In:				
	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Governmental Funds
Transfers Out:					
General Fund	$ —	$ 1,108,304	$ 1,813	$ 351,467	$ 282,737
Public Education	3,082	—	—	—	531
Conservation and Environmental Protection	1,080	—	—	—	—
Non-Major Governmental Funds	12,240	5,000	—	668,829	5,500
State Lottery	—	327,153	—	—	—
Unemployment Compensation	26	—	—	—	9,124
Non-Major Enterprise Funds	30	—	—	—	1,015
Internal Service Funds	8,277	—	—	—	23
Totals	$ 24,735	$ 1,440,457	$ 1,813	$1,020,296	$ 298,930

	Unemployment Compensation	Lottery	Non-Major Enterprise Funds	Internal Service Funds	Totals
Transfers Out:					
General Fund	$ 6,436	$ —	$ 1,825	$ 2,029	$ 1,754,611
Public Education	—	—	—	—	3,613
Conservation and Environmental Protection	—	—	—	—	1,080
Non-Major Governmental Funds	—	—	—	—	691,569
State Lottery	—	—	—	—	327,153
Unemployment Compensation	—	—	—	—	9,150
Non-Major Enterprise Funds	—	—	—	—	1,045
Internal Service Funds	—	25	—	217	8,542
Totals	$ 6,436	$ 25	$ 1,825	$ 2,246	$ 2,796,763

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2025, there were transfers of $14,449,000 to internal service funds from the general fund and special revenue funds due to funding source changes relating to leased assets. These are lease/subscription liability and capital assets in the internal service and enterprise funds and excluded from the governmental funds; therefore these transfers are not included in the reconciliation. This is because governmental funds use the modified accrual basis of accounting and therefore do not report lease liability or capital assets on their financial statements. Internal service fund transfers were eliminated at government wide. Enterprise fund transfers are reflected in business-type activities at government wide.

Note 17 - Restatements

During fiscal year 2025, additional information became available which required fund equity amounts. The following table presents a summary of these restatements by fund (in thousands of dollars):

	June 30, 2024 Fund Balance/Net Position Previously Reported	Prior Period Adjustments due to Error Corrections	Prior Period Adjustments due to a Change in Accounting Principle	June 30, 2024 Fund Balance/Net Position Restated

Breakdown of restatements by type:

- General Fund, the restatement is due to a decrease in cash and cash equivalents of $150,000 and a decrease in accounts receivable of $104,000.
- Public Education, the restatement is due to an increase in cash and cash equivalents of $19,000 and a decrease in accounts receivable of $972,000.
- Conservation and Environmental Protection, the restatement is due to a decrease in accounts receivable of $3,000.
- Missouri Road Fund, the restatement is due to a decrease in deferred revenues of $534,000.

Note 17 - Restatements (cont.)

- Non-major special revenue funds, the restatement is due to an increase in cash and cash equivalents of $337,000 and a decrease in accounts receivable of $27,000.
- State Lottery Fund, the restatement is due to an increase $497,000 in compensated absences due to the implementation of GASB Statement No. 101, *Compensated Absences.*
- Non-major enterprise funds, the restatement is due to a decrease in accounts receivable of $30,000, an increase of capital assets (net of accumulated depreciation/amortization) of $5,866,000, a decrease in lease liability of $415,000 due to misinterpretation of lease contracts and GASB Statement No. 87, *Leases*, an increase of $312,000 in compensated absences due to the implementation of GASB Statement No. 101, *Compensated Absences,* and an increase in deferred inflows of $37,000.
- Non-major internal service funds, the restatement is due to a decrease in accounts receivable of $260,000, a decrease of capital assets (net of accumulated depreciation/amortization) of $6,833,000, a decrease in accounts payable of $2,000, a decrease in financed purchases liability of $216,000, a decrease in lease liability of $109,000 due to misinterpretation of lease contracts and GASB statement No. 87, *Leases*, an increase in SBITA(s) liability of $29,000, an increase in compensated absences of $3,128,000 due to the implementation of GASB Statement No. 101, *Compensated Absences,* and a decrease in deferred inflows of $89,000.
- Private Purpose Trust Funds, the restatement is due to an increase of compensated absences of $37,000 due to the implementation of GASB Statement No. 101, *Compensated Absences*.
- Custodial Funds, the restatement is due to an increase in cash and cash equivalents of $49,000 and a decrease in accounts receivable of $1,398,000.
- Discretely presented component units - colleges and universities, the restatement is due to an increase in accounts receivable of $1,000, an increase of compensated absences of $29,824,000 due to the implementation of GASB No. 101, *Compensated Absences,* and an increase of $4,104,000 in prior year net position due to not receiving Harris-Stowe's financial statements in a timely manner which led to using prior year amounts.
- Discretely presented component units - non-major, the restatement is due to an increase in an increase in accounts receivable of $77,000, an increase in leave liability of $52,000, and an increase of compensated absences of $10,000 due to the implementation of GASB Statement No. 101, *Compensated Absences*.

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, internal balance increased $8,000, capital assets (net of accumulated depreciation/amortization) decreased $157,171,000 (including a decrease to land improvements and a related increase to infrastructure of $89,513,000 due to a change in processes), lease liability decreased $74,053,000 due to misinterpretation of lease contracts and GASB statement No. 87, *Leases*, subscription liability increased $6,092,000, financed purchases decreased by $1,503,000, and compensated absences increased by $128,466,000.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by a decrease in internal balance of $8,000.

Note 18 - Fund Deficit

The following funds had a deficit balance:

Enterprise Funds – State Lottery and State Agency for Surplus Property, Internal Service Funds – Natural Resources Cost Allocation, Economic Development Administrative, and Professional Registration Fees, and Component Unit Funds – Missouri Wine and Grape – At June 30, 2025, these funds had a net position deficit of $17,048,000, $858,000, $26,811,000, $3,941,000, $13,214,000, and $1,157,000 respectively. These funds have deficit balances due to the fiscal year 2015 implementation of GASB 68 and the reporting of net pension liabilities and the fiscal year 2018 implementation of GASB 75 and the reporting of OPEB liabilities. It is expected that these liabilities will be funded over time.

Enterprise Fund – Petroleum Storage Tank Insurance – At June 30, 2025, this fund had a net position deficit of $38,805,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2030, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Under Section 319.132, RSMo, the Board of Trustees has authority to increase the transport load fee to a maximum of $60 per 8,000 gallons. In addition, under Section 319.133, RSMo, the Board can increase annual participation fees to a maximum of $500 per tank per year. These facts, along with the knowledge that PSTIF's claim reserves are set using very conservative assumptions, assure that adequate revenues will be available to meet its liabilities. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Note 19 - Tax Abatements

The State has entered into various agreements to provide tax abatements through certain programs that provide economic benefit to the State.

Tax Abatement Program	Amount of Taxes Abated during Fiscal Year 2025 (in thousands)	
Housing		
Missouri Low Income Housing Tax Credit	$ 118,545	
Neighborhood Preservation Tax Credit	5,419	
Business Recruitment

* Confidential

** No abatement reported for fiscal year 2025

Housing

The Missouri Low Income Housing Tax Credit (MOLIHTC) is authorized by Sections 135.350-135.363, RSMo, and is a ten year tax credit which is available to qualified owners of affordable rental housing. To qualify upon application, a development must 1) rent at least 20% of its units to families earning 50% of the area median family income, 2) rent at least 40% of its units to families earning 60% of the area median family income, each adjusted for family size or 3) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% AMGI. The MOLIHTC generates equity investments that are purchased by the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. The investor of the MOLIHTC can redeem the credit by applying it dollar for dollar to the following types of tax liabilities: income tax, corporate franchise tax, insurance premium tax, other financial institutions tax, or express company tax. MOLIHTC properties must comply with tenant eligibility, property maintenance, and fair housing law throughout a 15-year period. The Missouri Housing Development Commission monitors the properties for compliance and reports non-compliance to the Internal Revenue Service and Missouri Department of Revenue. Property owners found to be out of compliance are subject to recapture through the provisions of Section 135.355, RSMo and IRS §42. Redemptions were made on MOLIHTC's authorized/issued in prior years. The MOLIHTC reduced state taxes by $118,545,000 during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

The Neighborhood Preservation Tax Credit is authorized by Sections 135.475-135.487, RSMo, and provides incentives for homeowners in lower income areas who rehabilitate or construct owner-occupied homes in qualifying or eligible areas of the State. Upon application, the eligible property must be in a qualifying area with a median household income of less than 70% of the median household income for the metropolitan statistical area (MSA) or non-MSA; or be located in an eligible area with a median household income of 70-89% of the median household income for the applicable MSA or non-MSA. Recipients are eligible to receive a credit for 15% of eligible costs up to $25,000 per residence for new residences in eligible areas; 15% of eligible costs up to $40,000 per residence for new residences in qualifying areas; 25% of eligible costs with a minimum of $10,000 and not to exceed $25,000 per residence for substantial rehabilitation in eligible areas; 35% of eligible costs with a minimum of $5,000 or 50% of purchase price and not to exceed $70,000 per residence for substantial rehabilitation in qualifying areas; and 25% of eligible costs with a minimum of $5,000 and not to exceed $25,000 per residence for non-substantial rehabilitation in qualifying areas. The abatement's can be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. A taxpayer, other than the owner-occupant who receives a certificate of tax credit, shall have 30 days within the date of the sale to furnish satisfactory proof that the residence was sold at market to the Director of the Department of Economic Development (DED). If the Director determines that the residence was not in good faith intended for long-term owner occupancy, then the Director may revoke any tax credits issued and seek recovery of those credits pursuant to Section 620.017, RSMo. There are no other commitments made as part of the agreement. The Neighborhood Preservation Tax Credit reduced state taxes by $5,419,000 during fiscal year 2025.

Business Recruitment

Missouri Quality Jobs is authorized by Sections 620.1875-620.1890, RSMo and provides tax incentives to qualified companies for facilitating the creation of new jobs or the retention of existing jobs in the State. This program has been replaced by Missouri Works, except for current projects. To qualify, the company must create a minimum number of jobs within the project facility within 2 to 3 years after the approval of the Notice of Intent and must maintain those jobs for the duration of the benefit. The average wage of the new jobs must equal or exceed the average county wage and the company must offer health insurance and pay at least 50% of the premium. The company must also submit an annual report. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. Missouri Quality Jobs did not reduce state taxes during fiscal year 2025.

The Missouri Works - Business Incentives is authorized by Sections 620.2000-620.2020, RSMo and provides tax incentives for qualified companies to create or retain jobs in the State. There are several sub-programs under this program with different qualifications for each. To qualify for the credits, a company must create or retain a minimum number of new jobs at the project facility with average wages of 80%, 90%, 100%, 120%, or 140% of the county average wage, depending upon the sub-program. The company must offer health insurance and pay at least 50% of the premium. The company must meet the requirement for new private capital investments, ranging from $0 to $500 million. The company must meet the required number of jobs at the applicable % of the county average wage within 2 years of the Approval of the Notice of Intent and must maintain those minimums for the duration of the benefit. The company must also submit an annual report documenting the jobs created, total payroll, and health insurance requirements. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. Taxes may be recaptured due to misrepresentation, out-of-state relocation, or failure to file an annual report. The agreement requires 100% of the benefits received to be repaid within 60 days for misrepresentation or out-of-state location or one year for failure to file an annual report. There are no other commitments made as part of the agreement. Missouri Works - Business Incentives reduced state taxes by $91,849,000 during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

Missouri One Start Community College New Jobs Training and Job Retention Training are authorized by Sections 620.800-620.809, RSMo. New Jobs Training provides assistance to eligible companies to train workers in newly created jobs. This program has an annual appropriation. For funding consideration, the company must create new jobs in the state; the project must include eligible training costs, as well as other eligibility criteria such as types of occupations, wage rates, and turnover rates. Job Retention Training provides training assistance to eligible companies for job retention efforts. To qualify, a project must be for an existing Missouri company making a capital investment of at least 5 times the total project costs, retaining at least 100 eligible jobs at the facility for at least one year, be located in a border community, or be determined to represent substantial risk of relocation. Eligible companies for both programs include manufacturing, research and development, or those engaged in interstate commerce. The company must retain the eligible jobs in the project for at least 5 years and use the funding only toward eligible project costs. These programs are administered locally through community colleges. While the recipient's taxes are not actually reduced, a portion of normal withholding payments (paid to the Department of Revenue) are deferred to pay for eligible project costs. The amount that can be deferred is 2.5% of the payroll for the first 100 jobs in the project and 1.5% of the payroll for the remaining jobs in the project. The company may file withholding claims for the project until the budgeted project funds are disbursed; typically for a period of 3-5 years, with maximum limit of 8 years. There are no other commitments under these programs. Recapture provisions apply in accordance with Section 620.017, RSMo in which the recipient shall repay training funds under these programs if the jobs included in the project are moved out of Missouri or are eliminated within five years of the date the project is approved by DED. The Director of the Division of Workforce Development within DED shall have the authority and discretion to exempt the recipient in whole or in part of such repayment. Missouri One Start Community College New Jobs Training and Job Retention Training reduced state taxes by $315,000 and $10,711,000, respectively, during fiscal year 2025.

The Missouri Manufacturing Jobs Act is authorized by Section 620.1910, RSMo and provides incentives in the form of retaining withholding taxes to expand manufacturing facilities for an existing product or the creation of a new product. This program sunset in 2016 and no new applications are being accepted. To qualify, manufacturing companies must have a North American Industry Classification System (NAICS) of 33611, which is an establishment primarily engaged in (1) manufacturing complete automobile and light duty motor vehicles or (2) manufacturing automobile and light duty motor vehicle chassis. The company must manufacture goods at a facility in the state throughout the period benefits are received, and make a capital investment at a facility of at least $75,000 per retained job for the manufacture of a new product within 2 years of beginning to retain withholding taxes or commit to make a capital investment of at least $50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within 2 years of beginning to retain withholding taxes. Qualified suppliers of an eligible manufacturer must attest to DED that they derive more than 10% of its total annual sales revenue from sales to a qualified manufacturing company, add 5 or more new jobs for a period of 3 years, pay wages for the new jobs equal to or exceeding the county average wage using the NAICS industry classification, but are not less than 60% of the statewide average wage, and the company must offer health insurance and pay at least 50% of the premium. If qualified, the company is allowed to retain 100% of the withholding tax that would otherwise have been paid in to the state for those jobs for 10 years for qualified manufacturers or 3 to 5 years for qualified suppliers. There are no provisions for recapture and no other commitments are made as part of the agreement. The Missouri Manufacturing Jobs Act reduced state taxes by $10,000,000 during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

Business Use Incentives for Large-Scale Development (BUILD) is authorized by Sections 100.700-100.850, RSMo. The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance of Board of Certificates (bonds or notes), where the principal and interest will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri state income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has insufficient Missouri income tax liability to offset the credit. A business can apply these credits against income tax, bank tax, insurance premium tax, or other financial institutions tax. To qualify, an eligible industry in manufacturing, processing, assembly, research and development, agricultural processing or services in interstate commerce must invest a minimum of $15 million; or $10 million for an office industry in an economic development project; and create a minimum of 100 new jobs at the project facility within 3 years, or a minimum of 500 jobs if the project is an office industry, or a minimum of 200 new jobs if the project is an office industry located within a distressed community as defined in Section 135.530, RSMo. The tax credits become subject to recapture if the company does not expend the minimum investment on or before the first test date established in the program agreement, or create and maintain the minimum number of new jobs on or before the first test date. The first test date is the last day of the closest calendar quarter ending 3 years following bond closing. The tax credits are also subject to recapture if the company eliminates or announces its intention to eliminate all the new jobs at the project within 2 years of the first test date. If subject to recapture, the company shall, within 30 days following written demand from the Board, reimburse the Board in full for the face amount of the tax credits received from the date of execution of the program agreement to the date of such demand. There are no other commitments made as part of the agreement. The BUILD program reduced state taxes by $4,871,000 during fiscal year 2025.

The Advanced Industrial Manufacturing (AIM) Zone Act is authorized by section 68.075, RSMo for the purpose of continuing to expand, develop, and redevelop AIM Zones identified by the port authority. The money in the fund must be used for expenses to continue expanding, developing, and redeveloping zones identified by the port authority board of commissioners. To qualify there must be an increase in the number of full-time employees located at the project facility that exceeds the project facility base employment less any decrease in the number of full-time employees at related facilities below the related facility base employment. Fifty percent of all state tax withholding on new jobs located in the zone are deposited into the port authority AIM Zone Fund. There are no provisions for recapture and no other commitments are made as part of the agreement. The AIM Zone Act did not reduce state taxes during fiscal year 2025.

The Enhanced Enterprise Zone is authorized by Sections 135.950-135.973, RSMo and provides tax credits to new or expanding businesses in enhanced enterprise zones. To qualify, a company must create or maintain at least 2 new jobs and make at least $100,000 in eligible investments. In addition, a Notice of Intent must be approved by Department of Economic Development (DED), and the business must submit an annual report. Eligibility for the credit is determined by the zone based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Taxes are reduced by claiming a tax credit against the Missouri income tax liability owed to the state. The tax credits are calculated at 2% of new payroll and 0.5% of new investment. There are no provisions for recapture and no other commitments are made as part of the agreement. The Enhanced Enterprise Zone program reduced state taxes by $1,000,000 during fiscal year 2025.

The Entertainment Industry Jobs Act is authorized by section 135.753, RSMo and provides a 30% tax credit of rehearsal and tour expenses that meet the minimum requirements. The minimum requirements include the purchase or rental of concert tour equipment, related services, or both, in an amount of at least a million dollars from a Missouri vendor for use in the rehearsal, on the tour, or both; a rehearsal at a qualified rehearsal facility for a minimum of ten days; and the holding of at least two concerts in the state of Missouri. There are no provisions for recapture and no other commitments are made as part of the agreement. The Entertainment Jobs Act did not reduce state taxes during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

The Intern and Apprenticeship Recruitment Act is authorized by section 135.457, RSMo and provides an income tax credit to eligible taxpayers who hire an intern or apprentice at a pay rate equal to or greater than the minimum wage, with additional requirements. The tax credit shall be equal to $1,500 for each intern or apprentice hired at a pay rate equal to or greater than the minimum wage, provided that the number of interns and apprentices employed during the tax year exceeds the average number of interns and apprentices employed by the applicant for the previous three years, and further provided that the interns and apprentices work a certain number of hours. An income tax credit equal to $1,500 for each intern or apprentice hired at a pay rate equal to or greater than the minimum wage, provided that the number of interns and apprentices employed during the applicable tax year exceeds the average number of interns and apprentices employed by the applicant for the previous three years. The total amount of tax credits for a taxpayer under this program shall not exceed $9,000 in any given tax year. There are no provisions for recapture and no other commitments are made as part of the agreement. The Intern and Apprenticeship Recruitment Act reduced state taxes by $1,000 during fiscal year 2025.

The Show MO/Motion Tax Credit Program is authorized by 135.750, RSMo and is designed to recruit motion media productions to the state of Missouri, including film, episodic, commercial, stand-alone post production and other qualified motion media production projects. The program provides a tax credit for in-state expenditures on qualified motion media productions equal to 20% to 42% of qualifying expenses. Productions that are under 30 minutes must have a minimum spend of $50,000; productions more than 31 minutes must have a minimum spend of $100,000. Productions must employ a number of Missouri registered apprentices or veterans residing in Missouri with transferable skills based on budget size, between 2 and 8. The abatement's can be applied against income tax, or financial institution tax. The ShowMO/Motion Tax Credit Program did not reduce state taxes during fiscal year 2025.

The Targeted Industrial Manufacturing Enhancement (TIME) Zones Act is authorized by section 620.2250, RSMo. The program helps communities support economic development by diverting state withholding taxes to fund infrastructure projects within a designated zone. The Program can divert 25% of state withholding taxes generated by new jobs created within a designated TIME Zone. The total amount of withholding taxes diverted through the Program shall not exceed $5 million dollars per state fiscal year. To qualify, an area must be identified through a resolution or ordinance passed by at least two contiguous or overlapping towns, villages, cities, or counties that is being developed or redeveloped may be designated as a TIME zone by the local political subdivisions through local ordinance and public hearing. The TIME Zones Act did not reduce state taxes during fiscal year 2025.

The Business Facility Tax Credit is authorized by Sections 135.100-135.150 and Section 135.258, RSMo and facilitates the expansion of new or existing facilities in Missouri. To qualify, a Notice of Intent must be approved by DED; the facility must create at least 2 new jobs and make $100,000 in eligible investments or pursuant to House Bill 191 (2009), for "headquarters" that commence operations and "headquarters" of certain "employee-owned" businesses that commence or expand operations must create 25 new jobs and make $1,000,000 in new investment. The company must submit an annual report to DED. Taxes are reduced by claiming a tax credit against the Missouri tax liability owed to the state. The tax credits are calculated as $75 to $150 per new job and $75 to $150 for each $100,000 in new investment for up to 10 years. The tax credits for headquarters are calculated as the greater of $400 per new job plus 4% of new investment or $500 per new job plus $500 per each $100,000 in new investment for up to 10 years. The credit may be applied against income tax, insurance premium tax, or insurance company retaliatory tax. This program has sunset as of January 1, 2005, except headquarters that commence or expand operations on or before January 1, 2031, may be eligible for the program. There are no provisions for recapture and no other commitments are made as part of the agreement. The Business Facility Tax Credit reduced state taxes by $19,769,000 during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

The Amateur Sports Ticket Sales Tax Credit is authorized by Section 67.3000, RSMo and provides an incentive to encourage the location of competitively bid amateur sporting events in Missouri. Upon application, applicants must submit predictions on the anticipated economic benefit to the state. Applicants will be evaluated based upon anticipated and verified economic performance. The program is available to one or more certified sponsors active in the National Association of Sports Commissions, endorsing counties, endorsing municipalities, or a local organizing committee, acting individually or collectively. The program provides tax credits equal to the lesser of: $5 per admission ticket sold to the event; or 100% of eligible costs incurred by the applicant. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit and may be taken against income tax, bank tax, insurance premium tax, and other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Amateur Sports Ticket Sales Tax Credit reduced state taxes by $1,882,000 during fiscal year 2025.

Data Center Sales Tax exemption is authorized by Section 144.810, RSMo and incentivizes the location and expansion of data centers in the state by providing an exemption of the sales and use taxes associated with a variety of activities necessary to build a new facility or expand an existing facility. To qualify, companies must create 5 new jobs and $5 million in investment for expanding facilities or create 10 new jobs and $25 million in investment for new facilities within certain time frames. A company is refunded their sales and use taxes for new purchases related to the data center project for the period prior to meeting the threshold for participation and then are exempt for a period of no more than 10 years for expanding facilities or 15 years for a new facility. Taxes may be subject to recapture if the full investment projected is not met or if the jobs created are not maintained, causing the cost/benefit to the State to be negative, or if the company does not meet the minimum thresholds. Taxes will be recaptured up to the amount that creates a positive cost/benefit to the state, or if the company does not meet the minimum thresholds, the full exemptions to date must be repaid. No other commitments are made as part of the agreement. The amount that state taxes were reduced is confidential under Section 32.057, RSMo.

The Missouri Rural Access to Capital Program is authorized by 620.3500 to 620.3530, RSMo and awards investment authority to Rural Business Investment Companies or Small Business Investment Companies, or their Affiliates, that serve as intermediaries between investors and businesses. The investor provides cash to these authorized investment companies in exchange for a tax credit. The investment companies then deposit those investments into a Rural Fund, using the fund to finance businesses in Rural Areas or Eligible Businesses that are also Agribusinesses. The tax credits are equal to 60% of the total Capital Investment over a six-year period. The Applicable Percentage across those six years will be $0 in years one and two and 15% of Capital Investment in years three through six. The Conditions under which the taxes become available for recapture include: A) The Rural Fund does not invest 60% of its Capital Investment Authority in Qualified Investments in Missouri within two years of the Credit Allowance Date and 100% of its Capital Investment Authority in Qualified Investments in Missouri within three years of the Credit Allowance Date, provided that at least 70% of the initial Qualified Investments shall be made in Eligible Businesses located in Rural Areas or Eligible Businesses that are also Agribusinesses. B) The Rural Fund fails to maintain Qualified Investments equal to 90% of its Capital Investment Authority from the third until the sixth Credit Allowance Date, with 70% of such investments maintained in Eligible Business located in Rural Areas or Eligible Businesses that are also Agribusinesses. C) The Rural Fund violates the provisions of §620.3525. D) The Rural Fund, before exiting the Program, or prior to 30 days after the sixth Credit Allowance Date, whichever is earlier, makes a distribution or payment that results in the Rural Fund having less than 100% of its Capital Investment Authority invested in Qualified Investments in this State or held in cash or other marketable securities, provided a Rural Fund shall be permitted to make distributions in amounts necessary for principal and interest payments due to the Leverage Source. Rural Funds will submit a report to the Department within the first 15 business days after the second and third Credit Allowance Date. (A) The report following the second Credit Allowance Date shall provide documentation as to the investment of 60% of the Purchase Price of such Capital Investment in Qualified Investments. B) The report following the third Credit Allowance Date shall provide documentation as to the investment of 100% of the Purchase Price of such Capital Investment in Qualified Investments. The Missouri Rural Access to Capital Act did not reduce state taxes during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

Chapter 100 Personal Property Tax Exemption is authorized by Section 144.054 (2), RSMo and provides a state and local sales tax exemption on tangible personal property leased by a company from the City or County. To qualify, cities and counties may apply to DED on behalf of eligible companies for which Chapter 100 bond proceeds are used to purchase tangible personal property, which is leased back to the company. DED may apply discretionary benefit exemption if the benefit contained in a formal DED proposal is accepted by the company. Since DED cannot enact the sales tax exemption on the lease without the underlying Municipality Chapter 100 in place, any inclusion in a formal DED proposal will be coordinated with the Municipality and their economic developer. The proposal must have been accepted by the company prior to any project announcements, no approval or issuance of the bonds may have taken place, and the tangible personal property may not have been purchased prior to the acceptance of the proposal. The project must also be competitive, have comprehensive local incentive participation, have above average wages with benefits, be located in an economically distressed or blighted area, have a positive state fiscal impact, and have an indication that the municipality has offered the local Chapter 100 exemptions. The company receives the exemption on sales tax as the facility, construction materials, and certain tangible personal property may be purchased as exempt by the City or County and then leased back to the company. The company will be responsible for the payment of sales tax on purchases exceeding the maximum accepted in the proposal, ineligible purchases, or the revenue stream generated by lease of ineligible personal property. There are no provisions for recapture and no other commitments are made as part of the agreement. The sales tax is applicable to the lease payments made over a period not to exceed 20 years by statute and restricted further by local ordinance. The sales tax exemptions are only applicable if tangible personal property purchases are made within established project time periods, as listed on the certificate. For fiscal year 2025, certificates were provided for the exemption of state sales tax related to lease payments of tangible personal property under a Chapter 100 structure for one project. The fiscal year 2025 project certificates total a cumulative amount of state sales tax not to exceed $1,758,000 over the term of the lease.

Redevelopment

The Historic Preservation Tax Credit is authorized by Sections 253.545-253.561, RSMo and provides an incentive for the redevelopment of commercial and residential historic structures in the state. Upon application, the eligible property must be listed on the National Register of Historic Places, be certified by the Department of Natural Resources (DNR) as contributing to the historical significance of a certified historic district listed on the National Register, or located within a local historic district that has been certified by the U.S. Department of Interior. The costs and expenses associated with the rehabilitation must exceed 50% of the total basis of the property. All approved applicants must commence rehabilitation within 2 years of the date of issuance of the letter of approval from DED. The program provides state tax credits equal to 25% of eligible costs and expenses of the rehabilitation of approved historic structures, which the recipient is able to use to reduce their outstanding tax liability in an amount equal to the value of their tax credit. The credit may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Historic Preservation Tax Credit reduced state taxes by $98,813,000 during fiscal year 2025.

Note 19 - Tax Abatements (cont.)

Brownfield Remediation is authorized by Sections 447.700-447.718, RSMo and provides incentives to businesses or developers to redevelop property contaminated with hazardous waste. To qualify, the property must be abandoned or underutilized for at least 3 years, and contaminated with hazardous substance, the applicant cannot be a responsible party, the project must be accepted into Department of Natural Resources (DNR) Voluntary Cleanup Program, the project must be endorsed by city or county government, must create at least 10 new jobs or retain 25 jobs, the project must create a positive net state economic benefit, and must demonstrate need for the credits. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit. The tax credits may be issued for up to 100% of eligible costs and expenses for remediating the project property. The tax credit may also include up to 100% of the costs of demolition that are not directly part of the remediation activities. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR. The tax credits may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. The tax credits may be subject to recapture in the event the owner sells the abandoned or underutilized property within a 5 year period after the receipt of remediation tax credits, grants, loans or loan guarantee. Subject to Sections 447.700-447.718, RSMo, the owner shall repay a portion of the tax credits and grant funds provided based on the percentage of the owner's investment for the project to DED's total financial assistance, upon achieving an annual internal rate of return of 25%. The internal rate of return calculation shall be documented by the owner's capital gains tax calculation. Owner investment is equity and debt for the eligible project. At the end of the project, a purchaser who has performed voluntary remediation action certifies to DNR that the goals of the purchaser's voluntary remediation plan have been attained. DNR verifies the remediation plan goals are achieved and issues a certificate that states that the site has been cleaned up to DNR standards pertaining to the property itself and therefore protects both current and future owners of the property. Brownfield Remediation reduced state taxes by $3,279,000 during fiscal year 2025.

Note 20 - Commitments

Contracts

The Department of Conservation had contracts outstanding of $3,006,000 for construction at June 30, 2025. These contracts are funded through special revenue funds from specific sales tax, fees, and permits.

The Department of Natural Resources had contracts outstanding of $97,000 for construction at June 30, 2025. These contracts are funded through special revenue and enterprise funds.

The Department of Transportation had long-term contracts of $3,024,313,000 outstanding at June 30, 2025. These contracts are paid from capital projects funds with approximately 30.7% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding of $154,272,000 at June 30, 2025. Approximately 87.7% will be paid from the General Fund, 7.8% from special revenue funds, 0.7% will be paid from the capital projects funds, and 3.8% will be paid from enterprise funds.

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to $11.2 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2025 was $364,000. Payment of principal and interest must be completed by March 2038.

Note 20 - Commitments (cont.)

As of June 30, 2025, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling $153,270,000. The payments are as follows:

2026	$	29,055,000
2027		29,830,000
2028		30,630,000
2029		31,453,000
2030		32,302,000

Truman State University had approximately $4,700,000 in outstanding commitments for various construction contracts at June 30, 2025.

Missouri State University had approximately $112,700,000 in outstanding commitments for various construction contracts at June 30, 2025.

University of Central Missouri had approximately $7,335,000 in outstanding commitments related to construction contracts at June 30, 2025.

Northwest Missouri State University had approximately $32,655,000 in outstanding commitments related to construction contracts at June 30, 2025.

Southeast Missouri State University had approximately $34,300,000 in outstanding commitments related to construction contracts at June 30, 2025.

Note 21 - Risk Management, Claims, and Judgments

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to state statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. Incurred but not reported (IBNR) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for approximately 3% of all state buildings, with the remainder uninsured. The buildings are insured through purchased property insurance and through the Property Preservation Fund. Buildings insured through the Property Preservation Fund are backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated pending self insurance claims represent the expected losses to be realized on known claims pending and include minor non-incremental claims adjustment expenses. Estimated unreported claims represent expected losses or claims incurred but not reported. Amounts are reported based on actuarial calculations. Liabilities for incurred losses related to workers' compensation and general and vehicle liability claims are reported at their discounted value, assuming an investment yield of 2.0%.

Note 21 - Risk Management, Claims, and Judgments (cont.)

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan for active employees is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is established from an actuarial report, which is based on data by MoDOT and claims administrators.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

On August 14, 2012, a lawsuit was filed against the Department of Corrections, Hootselle v. Department of Corrections, No. 12AC-CC00518. Several corrections officers alleged that the Missouri Department of Corrections failed to compensate them for pre- and post-shift activities, including passing through security checkpoints and retrieving equipment such as keys and radios. They entered a settlement agreement on June 1, 2022. Final judgment was entered on October 11, 2022.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for participants and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a non-major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discount rates ranging between 0.50% and 4.00% based on expected future investment yield assumptions. The University of Missouri System is included with college and universities as a major component unit of the State.

Missouri State University is exposed to various risks of loss. These include loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental, and accidental benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to general liability, workers' compensation, natural disasters, and employee health benefits. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self-Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self-insures the workers' compensation benefits for all state employees, including University employees.

Southeast Missouri State University is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, business interruption, errors and omissions, employee injuries and illnesses; natural disasters and employee health and accident benefits. The University purchases commercial insurance and receives coverage through the State of Missouri for these risks of loss. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

Note 21 - Risk Management, Claims, and Judgments (cont.)

Changes in the balances of claims liability (in thousands of dollars) during the current and prior fiscal years are as follows:

	Type of Insurance Claims	Fiscal Year Claims Liability 6/30/2024	Current Year Claims and Estimated Changes	Claim Payments	Fiscal Year Claims Liability 6/30/2025
Governmental Activities					
OA Workers Compensation Fund	Workers Comp.	$ 17,510	$ 44,119	$ (38,538)	$ 23,091

University of Missouri System	Workers Comp. and Liability	$ 104,353	$ 285,552	$ (282,850)	$ 107,055
Missouri State University	Health Care, Workers Comp. and Liability	2,326	29,088	(29,250)	2,164
Southeast Missouri State University	Workers Comp. and Liability	665	7,444	(7,377)	732
Total Component Units		$ 107,344	$ 322,084	$ (319,477)	$ 109,951

Risk Management Pool:

The Midwestern Higher Education Compact (MHEC) property program, participated in by the State of Missouri, concluded on July 1, 2023. The program will no longer be accepting new submissions but will continue to handle claims that occurred prior to the program conclusion. This program, as defined in Section 173.700, RSMo, was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by the institution. The MHEC Risk Management Oversight Committee directs the major operations of the program, overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

Note 22 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Section 260.391.7, RSMo, states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2025, the State was participating in the cleanup of twenty two Superfund sites. Total pollution remediation obligation for these sites totaled approximately $65.4 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) is in remediation activities related to buildings and grounds caused by contamination and a fuel leak. The current pollution remediation obligation for these sites totals approximately $8.0 thousand. The potential for additional pollution remediation exists, however, any future remediation obligations are not yet estimable.

The Missouri National Guard has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The site is listed on the National Priorities List and is governed by the Comprehensive Environmental Response, Compensation, and Liability Act. At this time, the Missouri National Guard's portion of the costs for the cleanup cannot be determined.

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation	Fiscal Year Remediation Liability 6/30/2024	Current Year Assessments and Estimated Changes	Payments	Fiscal Year Remediation Liability 6/30/2025	Due Within One Year
DNR	Superfund Sites	$ 58,653	$ 8,644	$ (1,860)	$ 65,437	$ 4,401
MoDOT	Buildings and Grounds Remediation	8	—	—	8	8
Total Governmental Activities		$ 58,661	$ 8,644	$ (1,860)	$ 65,445	$ 4,409

Note 22 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2025, the DNR, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be $431.0 million. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

As of June 30, 2025, Missouri Department of Natural Resources (DNR) had ten active Municipal Solid Waste Landfills (MSWLFs), no disposal transfer stations, and there was none in bankruptcy and no defaults. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with the DNR Solid Waste Management Law and Regulations. At June 30, 2025, it is expected that $1.7 million will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets. The percentage of landfill capacity used to date is 40.88 percent. The estimated remaining landfill life is 20.66 years.

In fiscal year 2023, as previously disclosed, the University of Missouri System submitted a formal plan with the Nuclear Regulatory Commission (NRC) for the decommissioning of a University owned building. The plan for decommissioning has been withdrawn with the NRC and the University is evaluating the feasibility of decontaminating, renovating, and returning the building to service or perform demolition on the building. The estimated liability is $8,200,000.

Note 23 - Asset Retirement Obligations

The State has a legally enforceable obligation to perform future asset retirement obligations (ARO) related to its tangible capital assets.

The Missouri Department of Natural Resources (DNR) has a total ARO of $1,719,000 for gas chromatographs, radiation detectors, chemical detectors, petroleum above ground storage tanks, and permitted sewage treatment plants. Gas chromatographs and radiation detectors are considered radioactive sources and will not be accepted by the State's Surplus Property Program, thus requiring a cost for disposition. These ARO's are measured at the current cost of returning the items to the vendor. Gas chromatographs have remaining useful lives of 0 to 9 years and radiation detectors have 0 to 3 remaining useful lives. Chemical detectors have a remaining useful life of 0 to 4 years. The ARO for petroleum above ground storage tanks is measured using the best estimate for taking the tanks out of service, which consists of emptying the tanks, removing the secondary containment, and proper disposal. Remaining useful lives of the tanks are 0 to 10 years. Aboveground storage tanks are regulated under the Missouri Code of State Regulations 2 CSR 90-30.050.16. The ARO for permitted sewage treatment plants is measured using the best estimate for closure of the facilities, which includes submitting a closure plan to DNR addressing wastewater and sludge removal, dewatering activities, removal of treatment structures, and removal of solid waste or leaving in place as a clean fill. Remaining useful lives of the plants are 0 to 42 years. Permitted sewage treatment plants are regulated by the Missouri Code of State Regulations 10 CSR 20-6-011.12 and the Federal Clean Water Act. The ARO for these items would be funded by state appropriations.

The Missouri Department of Transportation (MoDOT) has an ARO of $51,000 to properly dispose of all nuclear gauges used to measure physical properties of materials during its construction projects. The ARO is measured using the current cost of returning the items to the vendor. The assets have an anticipated useful life of 15 years. Disposal of the nuclear gauges is required by the Nuclear Regulatory Commission - NUREG 1556 Volume 1 Rev 2. The ARO will be funded by state appropriations.

Note 23 - Asset Retirement Obligations (cont.)

The National Guard (NG), Office of the Adjutant General, has an ARO of $30,000 to take two underground storage tanks out of service. The ARO is measured using the current cost for closure and the assets have estimated remaining useful lives of 19 years. Underground storage tanks are regulated under the Missouri Code of State Regulations 10 CSR 26. The ARO will be funded by state appropriations.

The University of Missouri (MU) has an ARO based on its ownership of two nuclear research reactors, which are regulated by the U.S Nuclear Regulatory Commission (NRC). The NRC requires the University to submit decommissioning funding plans every three years to retain the right to operate the reactors. The decommissioning funding plans update and adjust changes in costs to remediate and the extent of the estimated future contamination. The cost to decommission the reactors is based on a formula as set forth by the NRC as part of the licensing of the facilities. The ARO as of the end of fiscal year 2025 was $62,433,000. The remaining useful lives of the reactors was 17 years.

The balances of the asset retirement obligations (in the thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	ARO Liability at June 30, 2025
DNR	$ 1,716
MoDOT	51
NG	30
Total Governmental Activities	$ 1,797
Business-Type Activities	
DNR	$ 3
Component Units	
MU	$ 62,433

Note 24 - Contingencies

Contingent Claims Liabilities

Contingent claims liabilities are reported when it is probable a loss has occurred and the amount can be reasonably estimated. These losses include estimates of claims which have been incurred but not reported, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

As of June 30, 2025, the amount of contingent liabilities was $64.7 million. Changes in reported liability since June 30, 2024, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2024-2025	$ 64,079	$ 24,954	$ (24,329)	$ 64,704
2023-2024	65,250	25,054	(26,225)	64,079
2022-2023	70,023	18,727	(23,500)	65,250

Note 24 - Contingencies (cont.)

Section 287.220.8, RSMo, requires an actuarial study of the Second Injury Fund be made every year to determine solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2024 actuarial study. As at June 30, 2025, the amount of liabilities for Second Injury Fund was $2.4 billion. Changes in reported liability since June 30, 2024, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2024-2025	$ 2,384,999	$ 78,858	$ (46,630)	$ 2,417,227
2023-2024	2,350,486	81,563	(47,050)	2,384,999
2022-2023	2,315,842	92,166	(57,522)	2,350,486

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements by the grantor agency for expenditures disallowed under grant agreements. The State believes such dis-allowances, if any, would be immaterial in the next fiscal year.

Tort Claim Lawsuits:

The Attorney General, on behalf of other state agencies, is involved in litigation for tort claims including wrongful death, motor vehicle accidents, medical malpractice, assault and battery, and deliberate indifference, as well as employment discrimination claims not included in the 2025 liability amount. It is reasonably possible an adverse court decision may incur an estimated loss of $18.0 million.

Department of Labor and Industrial Relations:

Louise Jones, et al. v. Missouri Labor and Industrial Relations Commission, No. 23AC-CC04623 (Cole County Circuit Court). Plaintiffs filed a putative class action July 28, 2023, seeking a declaratory judgment that the Missouri Labor and Industrial Relations Commission payments on 2022 tort victims' compensation fund (TVCF) awards are unlawful in that they are based on incorrect numbers in violation of the express statutory framework for calculating payments. Plaintiffs seek payment of the entire (TVCF), which exceeds $274.0 million. The Office vigorously defended this matter and obtained a judgment in favor of the state at the circuit court. The Plaintiffs appealed the circuit court decision and gained an injunction preventing the TVCF from disbursing payments to the claimants until the appellate court resolves the matter. On August 5, 2025, the appellate court upheld the circuit court's decision - albeit, on other grounds than the circuit court. The appellate court's decision is not yet final and may be subjected to additional appellate review. The likelihood of an unfavorable decision from the from additional review by the appellate court is low to moderate. A reverse of the appellate court's decision could cost the state a loss in excess of $100.0 million. The ultimate resolution of the case cannot be predicted with any degree of certainty.

Note 24 - Contingencies (cont.)

HHS Technology Group Holdings, LLC, et al. v. State of Missouri, Case No. 16AC-CC00335, WD86036. The State terminated EngagePoint in May, 2015, after EngagePoint failed to complete contractually required work. EngagePoint claims over $37.0 million in damages stemming from unpaid change order requests. The State has asserted a counterclaim for over $80.0 million based on the difference between the price bid by EngagePoint and the actual cost of completing the state's Medicaid Eligibility Determination and Enrollment System using a replacement contractor. Trial was completed in July 2022, and a jury awarded EngagePoint $23.0 million, along with prejudgment and post-judgment interest of 9% per annum. The immediate appellate court affirmed the judgment entered against the State. The office of Attorney General vigorously defended this matter. The appellate court ruled in favor of the plaintiff in July 2025. This liability was resolved shortly thereafter in July 2025.

Department of Social Services:

The United States Department of Justice (DOJ) opened an investigation against Missouri regarding compliance with the Americans with Disabilities Act (ADA) and Olmstead on November 16, 2022. Documents were produced by DSS to the DOJ throughout the course of the investigation. In June of 2024, the DOJ issued a report finding Missouri violated the ADA by unnecessarily institutionalizing adults with serious mental illness in skilled nursing facilities. The parties are continuing settlement discussions but have yet to reach any agreement as of yet. The liability associated with the findings is uncertain and not reasonably ascertainable at this time.

HHS Technology Group Holdings, LLC. v. Department of Social Services, et al. Cole County Circuit Court Case No. 23AC-CC1434; WD87678. Plaintiff alleged defendants violated the Sunshine Law by not providing documents requested on the basis that the documents relate to ongoing litigation in EngagePoint, Inc. et al. v. State of Missouri, 16AC-CC00335. The court entered a judgment against DSS on November 19, 2024, for the plaintiff's attorney's fees and expenses, as well as civil penalty. On August 26, 2025, this case was voluntarily dismissed. The fees of $112,000 for the plaintiff attorney was resolved by the Attorney General Office. DSS payment of $5,000 for civil penalty is still pending.

Department of Corrections:

Doris Scott and Oriel Moore v. Trevor Foley et al., Case No. 2:24-CV-04107-MDH (US western District Ct. - Missouri). Inmate Othel Moore died in a DOC facility in December 2023, while in a restraint system designed to prevent injury to himself and others. DOC has discontinued the use of the restraint system in which More was held. Several former DOC members were charged with felony murder and / or manslaughter in connection with Moore's death. DOC's separate internal investigation resulted in ten people involved in the incident no longer employed by the DOC or its contractors. Plaintiffs, the biological mother and sister of Othel Moore, brought this wrongful death lawsuit against DOC, its officials, current employees, and former employees. The Office is vigorously defending this matter. An evaluation of the likelihood of a favorable or unfavorable outcome cannot be made at this time. the ultimate resolution, including potential liability, cannot be predicted with any degree of certainty.

Department of Health and Senior Services:

The Nurse Student Loan Program provides forgivable student loans to eligible Missouri undergraduate, graduate, post-graduate, and doctoral nursing students in exchange for service in underserved communities and facilities in the state. Current annual award levels, based on statute, are a one-time amount of $2,500 for LPN students and $5,000 for professional nursing students. Loans are repaid either through service in an underserved area, or via cash repayment at 9.5% simple interest.

For repayment via service, participants provide one year of professional service for each school year a loan is received, up to a maximum of 5 years. The number of loans awarded per year varies based upon available funding, number of previous students anticipating continued funding, and number of eligible new applicants.

Note 24 - Contingencies (cont.)

The Health Professional Student Loan Program is a competitive state program that awards forgivable loans to students pursuing health care training leading to Missouri licensure. Eligible disciplines are primary care physicians, primary care dentists, and dental hygienists. The amount of funding provided depends upon the student's chosen discipline and educational status. Repayment of loans can be completed either through obtaining employment to earn forgiveness or through cash repayment at 9.5% simple interest. Forgiveness is based upon the number of loans received and is earned at a rate of one year of professional service for each loan received, up to a maximum of 5 years. Qualifying employment is considered as full-time, direct patient care at a facility located in an area of need also referred to as a Health Professional Shortage Area.

The purpose of the Missouri Health Professional State Loan Repayment Program (SLRP) is to improve access to primary care by assisting rural and underserved communities with recruitment and retention of primary care providers. SLRP offers eligible healthcare providers an opportunity to receive up to $50,000 in financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services at an ambulatory public, nonprofit or private nonprofit primary care practice site located in a federally designated Health Professional Shortage Area.

The Missouri Nurse Loan Repayment Program offers Registered Nurses and Advanced Practice Registered Nurses an opportunity to receive financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services in an area of defined need in the State of Missouri.

For all types of loan programs, in the event of a default, i.e. the loanee does not complete the service agreement, the loan status changes to repayment. In the event the loanee does not repay according to the terms of their agreement, the Department of Health and Senior Services will work with the Attorney General's Office to try to collect the outstanding receivables. The current total amount of loans outstanding is $5.6 million; the total amount in repayment is $2.1 million. There is no correlation between who will or will not repay their debt once a default has occurred since it is subject to each individual case and the legal remedies pursued. Therefore, the amount of loss cannot be reasonably estimated.

Other Contingencies:

Charles Lane et al. v. Police Retirement System of the City of St. Louis, et al., No. 2122-CC00751. The plaintiff seeks a declaration and judgment that certain Missouri Statutes impacting the obligations of the St. Louis Police Retirement System are unconstitutional under the Hancock Amendments to the Missouri constitution. A favorable judgment for the Plaintiffs and or non-state Defendants would likely mean that certain components of the St. Louis Police Retirement System would be the responsibility of the state. The case is set for a one day bench trial in September 2026. An evaluation of the likelihood of a favorable or unfavorable outcome and an estimate of the amount or range of potential loss cannot be made at this time. The ultimate resolution of the case cannot be predicted with any degree of certainty.

Donald Nash v. Henry Folsom, et al., No. 4:21-vv-00495-SEP (US Eastern District Ct. - Missouri). The plaintiff, after being granted habeas relief and his conviction overturned, filed a suit in federal court against several Missouri public officials for unlawful arrest and detention, fabrication of evidence, and failure to investigate. As a result of the 8th Circuit Court upholding the denial of qualifying immunity for certain public officials, the risk of an unfavorable outcome to the state at trial is moderate to high. Estimated exposure ranges between $10 - $20 million. The case is scheduled for a bench trial in February 2026. The ultimate resolution of the case cannot be predicted with any degree of certainty.

Note 24 - Contingencies (cont.)

Paul Bumpas and Fred Van Noy v. Missouri Housing Development Commission et al., Case No. 4:24-cv-01047-MTS (US Eastern District Ct. - Missouri). Plaintiffs filed a putative class action alleging the Missouri Housing Development Commission (MHDC) discriminated against them based on their non-minority race. Plaintiffs allege that Missouri used race-based considerations in developing, marketing, and administering the Missouri State Assistance for Housing Relief for Homeowners programs, preferring racial and ethnic minorities at the expense of non-minority homeowners. The case is set for a jury trial on December 7, 2026. The Office is vigorously defending this matter. An evaluation of the likelihood of a favorable or unfavorable outcome cannot be made at this time. The ultimate resolution, including potential liability, cannot be predicted with any degree of certainty.

K.B.C., by and through her next friend Ximena Chirinos Herrera v. Julie Vircks, et al., Case No. 2316-cv11528. Plaintiff, a minor child under 14 years of age, filed this negligence lawsuit against several doctors related to the parental care and the birth of plaintiff at University Health Medical Center (formerly Truman Medical Center). Plaintiff alleges that the care of these doctors resulted in permanent injuries, impairments, development delays, and scarring and disfigurement. Plaintiff further alleges that the doctors' actions resulted in the need for her to receive extensive medical, surgical, hospital, nursing, therapeutic, and rehabilitative care and that she will continue to require such care in the future. Plaintiff seeks damages for past care, and her future care, as well as her loss of future ability to earn wages and benefits. Nothing in the petition appears to allege Plaintiff will have a shortened life span. The cost for future potential care and income needs may be substantial. The Office is vigorously defending this matter. An evaluation of the likelihood of a favorable or unfavorable outcome cannot be made at this time. The ultimate resolution, including potential liability, cannot be predicted with any degree of certainty.

Tobacco Master Settlement Agreement:

Under the 1998 Tobacco Master Settlement Agreement (“MSA”), Missouri receives annual settlement payments in perpetuity from Participating Manufacturers (“PMs”) of tobacco products. Each year, on or about April 15th, Missouri receives an annual payment typically between $85 and $130 million. Annual MSA payments are subject to a downward adjustment if the PMs lose more than 2% of their pre-MSA market share to Non-Participating Manufacturers (“NPMs”). Individual states may avoid their share of this “NPM Adjustment” by enacting and diligently enforcing model legislation, which imposes certain escrow obligations on NPMs

The tobacco manufacturers contest Missouri’s enforcement of the model legislation for 2004 and subsequent years, each of which is subject to binding arbitration. The circuit court denied both parties' motions to vacate. However, the matter has been appealed and the Attorney General office is vigorously defending this matter in the appellate courts.

The arbitration regarding diligent enforcement for 2005 is ongoing and the Office is vigorously litigating this matter. The hearing for the 2005 NPM Adjustment Arbitration took place at the end of June 2025. An Arbitration ruling is expected from the 2005 Arbitration Panel before the end of February 2026 which could impact Missouri's annual tobacco payment in 2026. The ruling from the Arbitration Panel will likely be subjected to additional review by the Missouri courts. The ultimate resolution of this matter, the timing of any additional review by Missouri courts, and the outcome of any subsequent arbitration cannot be predicted with any degree of certainty.

Note 24 - Contingencies (cont.)

Contingent Gains

Contingencies that might result in gains are not reported on the statements since they are not realizable.

Attorney General Litigation:

State of Mo ex rel Attorney General Andrew Bailey v. Dolgencorp, LLC d/b/a Dollar General, No. 2322-CC06910 (St. Louis City Court). The State of Missouri brought a civil lawsuit against Dollar General for deceptive practices that violate the Missouri Merchandising Practices Act, for everyday staples and necessities, and then deceive customers as to the prices they are actually paying for these items by routinely charging higher prices at the point of sales than the prices listed on the shelf. The state asks the Court to enjoin Dollar General from these practices, for civil penalties, and for restitution. This matter is ongoing and the Office is vigorously litigating the matter. At this time, we cannot predict with any degree of certainty the potential gain and/or restitution to the state and Missouri consumers.

State of Mo v. Jackson County and Tyler Technologies, Inc., et al., No. 2316-CV33643 (Jackson County Circuit Court). The State of Missouri brought a civil lawsuit against Jackson County, Missouri, and Tyler Technologies over failures to follow the law with respect to 2023 property assessments and Merchandising Practices Act violations. Missouri asks the Court to void the 2023 tax assessments, require Jackson County to issue refunds to the state and its taxpayers, and for penalties and damages. This matter is ongoing and at this time, the Office cannot predict with any degree of certainty the potential gain and/or refunds to the state and its taxpayers.

In re Generic Pharmaceuticals Pricing Antitrust Litigation, No. 2:16-md-02724 (US District Courts - Eastern District of Pennsylvania). This is a multi-state anti-trust litigation. Plaintiffs, including Missouri and other states, allege generic drug manufacturers concocted a broad scheme to fix generic drug prices as well as engaged in illegal market and customer allocations concerning many generic drugs. Plaintiffs allege the generic drug manufacturers' conduct violates certain federal and state anti-trust laws. At present, Plaintiffs claims encompass at least 18 generic drugs. This matter is a large, multi-district litigation. The Office is assisting with, and vigorously litigating, the matter and protecting the interests of Missouri and its citizens in this litigation. The Office cannot predict with any degree of certainty the potential gain to the state, given the status and nature of the case.

Natural Resource Settlements:

The Department of Natural Resources works jointly with the United States Fish and Wildlife Service and United States Forest Service to recover damages from parties responsible for causing injuries to natural resources. Funds from these settlements are typically held in the federal treasury in a joint account administered by the United States Department of Interior. Expenditures of these funds may only be by mutual agreement of the Missouri Trustee Council (the Department of Natural Resources, the United States Fish and Wildlife Service and, at times, United States Forest Service) and such funds may only be used to restore, replace, or acquire natural resources similar to those that were injured. As of June 30, 2025, the balance of Missouri-related joint settlement funds in the Department of Interior restoration fund is approximately $45.7 million.

Opioid Settlements:

The State of Missouri is receiving and will continue to receive money from companies who manufactured, sold, distributed, or marketed opioids. Receivables, revenues, and/or deferred revenues have been recognized accordingly within the statements. Many settlements, some known and others likely unknown, will be finalized in the future. Therefore, the full contingent gain cannot be predicted with any degree of certainty but will be within the hundreds of millions of dollars.

Note 25 - Nonexchange Financial Guarantees

The following nonexchange financial guarantees are extended by the Missouri Agricultural and Small Business Development Authority (MASBDA) and the Missouri Department of Agriculture (MDA). The exchange financial guarantees are not recognized as a liability, which indicates that the State will most likely not be required to make a payment related to the nonexchange financial guarantees. As of June 30, 2025, the State extends the following financial guarantees:

Programs	Maximum Guarantee Period	Total Number of Loans Outstanding	Total Dollar Amount of Loans Outstanding (in thousands)	Total Dollar Amount Guaranteed by the State (in thousands)
Crop and Livestock Loan Guarantee Program	2 Years	13	$ 37	$ 19

Missouri Value-Added Loan Guarantee Program

The Missouri Value-Added Loan Guarantee Program, authorized in Sections 348.400-348.415, RSMo, provides up to a 50% first-loss guarantee on loans, of $250,000 or less, made by lenders for the purpose of agricultural business development. The loan guarantee is for a duration of up to 10 years. The program is intended to create new economic activity by creating or retaining jobs. Loans guaranteed by the value-added loan guarantee program can be used to finance agricultural property, which includes land, buildings, structures, improvements, and equipment used for the purpose of processing, manufacturing, marketing, exporting, or adding value to an agricultural product. Loans may also be guaranteed to buy stock in a new generation processing entity that processes an agricultural product. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2025, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals $52,000 and there are no outstanding Missouri Value-Added Loan guarantees.

Single-Purpose Animal Facilities Loan Guarantee Program

The Single-Purpose Animal Facilities Loan Guarantee Program, authorized in Sections 348.185-348.225, RSMo, is designed to provide banks and other lenders with a 50% first-loss guarantee on loans of up to $250,000 for up to 10 years. Independent livestock producers may use the loans to finance, refinance or restructure breeding or feeder livestock, earthworms, land, buildings, facilities, equipment, machinery and animal waste systems for producing poultry, swine, beef and dairy cattle, or other livestock. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2025, and there were no outstanding Single-Purpose Animal Facilities Loan Guarantees.

Crop and Livestock Loan Guarantee Program

The Crop and Livestock Loan Guarantee Program, authorized in Section 261.027(3), RSMo, is a 50% guarantee on a loan made to a 4-H and Future Farmers of America member who borrows money to purchase livestock, input, etc., for their Supervised Agriculture Education project. Loans eligible for the program are limited to the purchase of livestock, feed, seed, fertilizer, and other miscellaneous out-of-pocket expenses directly related to the project. In the event of a default, the MDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2025, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals $2,000.

Note 26 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation/depreciation of the endowments is $4,470,000 (Harris-Stowe's financial information is based on their June 30, 2024, Annual Comprehensive Financial Report). Of this amount, $1,040,000 is reported as restricted non-expendable, $3,381,000 is reported as restricted expendable, and $49,000 is reported as unrestricted net position. The University of Missouri reported a net appreciation/depreciation of restricted non-expendable net position in the amount of $188,153,000 which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, please see the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.134, RSMo. These policies are entity specific and vary with each institution.

Note 27 - Conduit Debt

As of June 30, 2025, the Missouri Development Finance Board issued $1,711,968,000 in Private Activity Bonds and $3,128,670,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2025, were approximately $251,297,000 and $827,535,000, respectively. The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

As of June 30, 2025, the State Environmental Improvement and Energy Resources Authority (EIERA), a component unit of the State of Missouri, had an outstanding balance of approximately $460,452,000 in Tax Exempt Revenue Bonds. Of this outstanding amount, $148,357,000 is for Water Pollution Control and Drinking Water Revenue Bonds issued on behalf of the Department of Natural Resources. The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of EIERA.

Note 28 - Subsequent Events

Bonds

On December 16, 2025, the Missouri Highways and Transportation Commission issued $481.8 million of State Appropriations Mega Projects State Road Bonds, Series A 2025. The bonds bear interest of 5.0% due in semi-annual installments beginning November 1, 2026. The bonds were issued for the purpose of paying the costs of planning, designing, constructing, reconstructing, rehabilitating, and significant repair of Interstate 70 on the State Highway System to provide three lanes of traffic in both directions from Blue Springs to Wentzville and paying the costs related to the issuance of the Series A 2025 bonds.

Health

On December 29, 2025, the State of Missouri was awarded more than $216.0 million in funding for the first year of the Rural Health Transformation Program. The program is an initiative designed to strengthen healthcare access, improve outcomes and support innovative care in rural communities.

Miscellaneous

On December 22, 2025, it was determined, the Kansas City Chiefs would move venues, out of state, in January 2031 when their lease with Arrowhead Stadium expires. The team generates an estimated $28.8 million in state tax revenue annually.

On December 31, 2025, the State of Missouri was awarded $14.24 million in federal funding to strengthen security for the FIFA World Cup events that are scheduled to take place from June 16, 2026, to July 11, 2026.

Required Supplementary Information (RSI) *includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, Schedule of Changes in Net Pension Liability and Related Ratios, Schedule of Proportionate Share of the Net Pension Liability, Schedule of State Contributions, Schedule of Changes in Total OPEB Liability and Related Ratios, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Proportionate Share of the Collective Net OPEB Liability, and the Notes to RSI on Budgetary Reporting.*

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where actual revenues are recognized when cash is received, and actual expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2025, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at https://acct.oa.mo.gov/reports/annual-reports/appropriation-activity-reports. The original budget expenditures and transfers are for what was originally appropriated for each fund. The final budget expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the final budget column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between budgeted and actual expenditures and transfers out on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2025, is shown below (in thousands):

	Final Budget Transfer		Actual Transfer	
	In	Out	In	Out
GENERAL FUND	$ 4,609,536	$ (4,609,536)	$ 2,421,163	$ (2,421,163)
SPECIAL REVENUE FUNDS				
Public Education	504,059	(504,059)	475,620	(475,620)
Conservation & Environmental Protection	159	(159)	9	(9)
TOTAL	$ 5,113,754	$ (5,113,754)	$ 2,896,792	$ (2,896,792)

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures may, at times, exceed estimated revenues and other sources of funding, including beginning fund balances, to anticipate interest earnings. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

*After post-valuation adjustments.

Notes to the Schedule:
Changes of benefit terms. There were no changes in benefit terms during the fiscal year ended June 30, 2024.

Changes of assumptions.
For MOSERS: There were no changes in assumptions during the fiscal year ended June 30, 2024.
For MPERS: There were no changes in assumptions during fiscal year ended June 30, 2024
For MSEP - CU: There were no changes in assumptions during the fiscal year ended June 30, 2024.
For MU: There were no changes in assumptions during the fiscal year ended June 30, 2024.

Contributions as percentage of covered payroll.
For MPERS: The rate of the previous years has been changed due to errors in the calculations.

*Based on a measurement date of the preceding fiscal year and actuarial valuation as of the July 1, 2024.

Note: This schedule is ultimately required to show information for ten years. However, until a full ten-year trend is compiled, only the years that information is available will be reported.

Notes to the Schedules:

Neither MHPML or CEIP have assets that are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Changes of benefit terms. For MU: The following plan changes, which will take effect January 1, 2026, have been captured in the valuation: The Healthy Savings Plan deductible will increase from $1,750 and $3,500 to $2,500 and $5,000 for in network single and family coverages, respectively. The plan will eliminate coverage for weight loss drugs.

Changes of assumptions.

For MCHCP: The discount rate remained the same at 5.50% at the July 1, 2024 valuation. The trend assumptions were revised to reflect future expectations based on the rates Guaranteed for the Medicare Advantage Medical Plan and the estimated impact of the Inflation Reduction Act of 2022 (IRA) on Medicare Prescription Drug plans.

MHPML: The discount rate changed from 3.65% to 3.93% in the July 1, 2024 valuation.

CEIP: The discount rate changed from 3.93% to 5.20% in the June 30, 2023 valuation.

For MU: Claims and trends for all plans were revised to reflect future expectations. Also, the discount rate used for the valuations was changed from 3.93% to 5.20% in the June 30, 2025 valuation.

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison statement is provided for all non-major governmental funds.

*The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.*

Non-Major Special Revenue Funds:

Professional Registration - Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance - Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair - Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance - Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement - Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation - Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other - Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

*The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.*

Permanent Funds:

Arrow Rock State Historic Site Endowment - Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

Confederate Memorial Park - Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

State Public School - Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

Smith Memorial Endowment Trust - Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

*The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.*

Non-Major Enterprise Funds:

State Fair Fees - Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks - Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services - Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving - Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Petroleum Storage Tank Insurance - Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

State Agency for Surplus Property - Accounts for the surplus property operation.

Department of Revenue Information - Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

Inmate Canteen - Accounts for sales of the canteen or commissary which is used to improve offender recreational, religious, or education services.

*The **Internal Service Funds** account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.*

Internal Service Funds:

Natural Resources Cost Allocation - Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments - Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation - Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving - Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving - Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving - Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust - Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative - Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees - Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan - Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan - Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan - Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan - Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan - Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

*The **Fiduciary Funds** account for assets held by the State in a trustee or custodial capacity.*

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan - Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan - Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust - Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan - Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan - Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust - Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Unclaimed Property - Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Custodial Funds:

Program - Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution - Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

*The **Statistical Section** presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.*

STATE OF MISSOURI
STATISTICAL SECTION
June 30, 2025

Index and Overview

This part of the State's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Financial Trends
These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Position by Component 228
Changes in Net Position 229
Fund Balances - Governmental Funds 231
Changes in Fund Balances - Governmental Funds 232

Revenue Capacity
These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry 234
Revenue Base - Personal Income by Industry 235
Personal Income Tax Revenue 236
Personal Income Tax Rates 237
Revenue Payers by Industry 239
Personal Income Tax Filers/Liability 240

Debt Capacity
These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt 241
Pledged Revenue Coverage 243

Demographic and Economic Information
These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators 244
Economic Indicators 245
Principal Employers 246

Operating Information
These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function 247
Operating Indicators by Function 248
Capital Asset Statistics by Function 250

Sources: Unless otherwise noted, the information in these schedules is derived from the State of Missouri Annual Comprehensive Financial Report for the years shown.

2019	1,955,445	389,546	1,565,899	209,355	80,032	5.4
2018	2,000,651	383,969	1,616,682	200,185	89,422	5.6
2017	1,852,570	388,116	1,464,454	190,770	103,917	5.0
2016	1,831,126	372,800	1,458,326	168,470	111,751	5.2

[1] Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

[2] Operating Expenses do not include depreciation/amortization.

[3] Coverage equals net available revenue divided by debt service.
